Welcome to The University of Queensland

Starting university is the beginning of a transformational experience. You’ll make lifelong friends, exchange ideas with other bright minds, and learn from Australia’s most awarded teachers.

You’ll gain knowledge and skills to help you excel, no matter where your life and career take you in this rapidly changing world. You’ll join a community of students from all over Australia and around the globe – each with their own unique worldview, but united by the curiosity, creativity and entrepreneurial spirit that make UQ graduates so attractive to employers.

As a global top 50 university, UQ has championed creative thinking for more than 100 years to solve problems facing humanity. Our teaching is not only informed by the most up-to-date research, but our researchers are discovering the latest breakthroughs and having a positive impact on people’s lives around the world.

We’re also passionate about enriching the entrepreneurial ecosystem and creating the leaders of the future. We support entrepreneurs at every stage of their journey, by providing opportunities to work alongside staff and alumni, and connecting them with a wide range of global experts. At UQ, you’ll learn in a way that suits you at one of our beautiful campuses in South-East Queensland – whether in seminars, small tutorials, laboratories, online, or by partnering with our passionate educators to change how courses are taught.

University isn’t just about study though – you’ll also have fun here. We are renowned for our vibrant campus culture, clubs, societies, and world-class sporting facilities.

So, UQ is a place where you’ll enjoy your recreation time and make friends for life.

No matter what your reason for being here, I am sure that you will enjoy UQ’s long-standing traditions, while creating some new ones of your own.

At UQ, we aim to equip you for any challenge and every journey. I look forward to seeing the positive impact that you will create in your time with us and beyond.

Professor Deborah Terry AO
Vice-Chancellor and President
Welcome to UQ. Welcome to a community where you can truly belong.

Our community is the university’s pulse – it’s what keeps us going. And the diversity of UQ’s people is what brings life to the spaces we gather in.

We want our students to not only feel a deep sense of belonging at UQ, but to thrive. So, we’re constantly striving to ensure every person in our community feels seen, heard and celebrated.

Through equity, diversity and inclusion, we’re creating vibrant and inclusive environments that allow ideas to flourish and people to feel empowered. People just like you.

Here’s how we’re doing it.
Celebrating LGBTQIA+ people
LGBTQIA+ people are welcomed, included and celebrated at UQ. From our student-run Queer Collective to our Ally Network, we aim to create a safe community that values and takes pride in its diversity of gender, sex and sex characteristics, and sexuality.

Embracing all cultures
The UQ community embraces and respects people from different backgrounds, lifestyles and cultures. Culturally and linguistically diverse peoples are essential to UQ’s vibrant, welcoming atmosphere. We have many student-led clubs and societies for students from a huge variety of cultures, faiths and walks of life.

Providing constant support
We know university life can get tough sometimes. That’s why we provide our students with a comprehensive suite of support services. From mental health to study support and everything in between, we’re here if you need us.

Encouraging niche interests
There are clubs, societies and initiatives for students with niche interests too. From K-pop to stargazing, UQ students are encouraged to pursue their passions and connect with others, creating the perfect setting to make lifelong friendships.

Ensuring accessibility
At UQ, we strive to ensure physical, technological and academic accessibility for all students experiencing disability, neurodiversity, mental illness and chronic illness. We provide services that focus on creating an inclusive environment where all students have the same opportunity to succeed.

Championing equity
Everyone arrives at UQ from a different background and situation. What’s important is that each student is encouraged to thrive and provided with the specific support needed to do so. We aim to remove personal, financial and geographical barriers to study, so all students can achieve their goals.
Realise your dreams. Remain true to who you are. This is how UQ aims to inspire and support Aboriginal and Torres Strait Islander students.

A culturally safe and inclusive community
Making the transition to university can be hard, especially if you have to leave your family, friends and Country. UQ is a place not just to study, but to belong. You’re part of not just a cohort, but a community. From pre-enrolment through to graduation, you’re supported by the Aboriginal and Torres Strait Islander Studies Unit (ATSISU), the Goorie Berrimpa Indigenous student collective, and a large Indigenous student peer group from all different nations. At UQ, you’re always connected to mob and culture, so you can stay true to yourself and your community, even if you’re away from home.

Everything you need to succeed
UQ has a strong and growing network of more than 1,000 Aboriginal and Torres Strait Islander alumni who are doing extraordinary work in our communities and around the globe. We want to inspire you to also achieve extraordinary things, whatever that may mean to you.

We aim to offer everything you need to help you succeed, from pathways into study and professional development opportunities such as study abroad programs, to help with accommodation and support tailored to your needs through the ATSISU. We’re here to support you through every step of your studies and to help you learn how to lead the way in your community, your field and your life.

Celebrate who you are
At UQ, we know a big part of the university experience is what happens outside the lecture hall. We have a huge array of social, cultural and professional development events for Aboriginal and Torres Strait Islander students. These include the pre-orientation welcome and information sessions, workshops with guest speakers, NAIDOC Week and the NAIDOC Ball, Reconciliation Week and the Indigenous Uni Games. We want you to be able to celebrate and acknowledge who you are, and your culture with the UQ community.

Scholarships available
Aboriginal and Torres Strait Islander Studies Unit

Your community on campus.

Need help, advice or just a yarn? UQ’s ATSISU is your place to seek guidance, find support, and connect with other Aboriginal and Torres Strait Islander students through dedicated social and study spaces.

At UQ, we believe there’s no barrier to study you can’t overcome with the right support. Our ATSISU helps all Aboriginal and Torres Strait Islander prospective and current students access:

- World-class learning facilities
- Helpful advice and support on UQ admission pathways to help you find the best program
- Orientation for new students to assist with the transition to university life and study
- A fun and engaging program of social and cultural activities
- Professional development, work experience and career opportunities
- Learning support, pastoral care and tutoring
- Access to financial support and a wide range of UQ and community scholarships
- A range of accommodation options
- Student services tailored to your needs

At UQ, we see you, welcome you, and celebrate you. We embrace you for who you are and who you aspire to become.
Life at UQ

Experience the electricity of a live concert, get your heart racing on the footy field, relax under gently swaying palm trees, watch the jacaranda flowers fall in little bursts of purple...

Life at UQ can be exhilarating one moment, then quiet and calm the next. It’s full of excitement, new experiences and adventures, but there are also those pockets of stillness between classes, exams and events where you can stop and take a deep breath. Your life at UQ can be as busy or as still as you make it. One thing is for certain, though: there are plenty of ways to make it about more than just study.
Arts and culture

Socialise, share, create, connect. Remember, university is also about having fun and meeting new people. And some of the best ways to do this is through entertainment, art, culture and music. Visit life.uq.edu.au to discover what’s on at UQ.

Join clubs and societies
UQ Union has more than 220 clubs and societies to cater for everyone, from fans of street dance to robotic experimentalists. Find your crew, pursue your hobbies or try something new. Visit uqu.com.au/clubs-societies to explore your options.

Attend festivals
UQ’s campuses hold festivals throughout the year to celebrate the changing seasons and major cultural events. Join the liveliness of Diwali celebrations, and get amongst events such as NAIDOC Week, Moon Festival and Cultural Fiesta.

Experience live music
From indie to orchestral, music can be a big part of your time at UQ. Soak up some live entertainment at the REDROOM at St Lucia, or attend an all-ages concert organised by UQ Union throughout the year. From touring acts to local musicians, student bands and classical concerts, there’s something to suit everyone’s musical tastes. You can also join UQ music ensembles.

Immerse yourself in art, history and theatre
UQ has 5 museums with a large and fascinating collection of art and artefacts, and rotating exhibitions. Delve into history, interact with installations and support student artists. UQ also hosts live theatre performances during the year, where you can catch a student play or other professional productions as part of various festivals.

Connect over food
Whether it’s meeting friends for a coffee, heading to the bar for a snack and trivia, or exchanging dishes that remind you of home, there are plenty of places on campus to connect with other students over a shared love of food. Join other green thumbs in the community garden, participate in a baking competition or take a cooking class.

Find spaces to chill
UQ has plenty of beautiful indoor and outdoor spaces designed for relaxing with friends. Enjoy a picnic by the picturesque UQ Lakes, find a quiet nook in one of the many libraries, or grab your bike for a morning ride around campus.
There's nothing quite like the solitude of a morning swim, the camaraderie of training with a team, or the exhilaration of scoring that final goal just before the buzzer sounds. When it comes to keeping fit, healthy and happy while you study, UQ has you covered. Achieve your personal best with a wide range of sports and activities to choose from and more than 35 sporting clubs across the St Lucia and Gatton campuses. Whether you’re a social player or a top athlete, we’ve got something to keep you moving.

Facilities
UQ Sport is home to some of Queensland’s finest sport and recreation facilities. Here you’ll find athletics, aquatic, tennis and fitness centres, as well as a selection of grass and synthetic playing fields and indoor and outdoor courts.

Competitive sport
There’s a huge array of sporting competitions for you to get involved in at UQ. With leagues and tournaments in tennis, AFL, netball, hockey, soccer, rugby union and more, you can participate in a range of competitions, going head-to-head with fellow UQ students, residential colleges or other universities.

Social sport
Prefer a more casual approach to sport? Social sport is a great way to meet new people and stay active. With a wide range of sports to choose from, you’ll find your new teammates in no time.

Fitness
UQ offers plenty of fitness classes and equipment for you to utilise in both group and solo settings. Join a regular yoga, Zumba or HIIT class, or head to the gym and make use of 3 levels of top-notch equipment for cardio and strength training. Prefer the water? We also offer a range of aquatics classes, with options available for all levels of experience.

Elite athletes
UQ supports more than 200 student athletes, including Olympians, Paralympians, and Commonwealth Games and professional athletes. UQ’s Elite Athlete Program aims to equip student athletes for success now and in the future by delivering a holistic approach to athlete support and providing access to a range of personal and professional development opportunities and resources.

There are also a number of UQ Sporting Scholarships awarded to exceptional student athletes each year. These scholarships support athletes from a range of sports in balancing their studies with the demands of elite-level sport.

Visit uqsport.com.au to discover how you can get active at UQ
Giving back

Make meaningful use of your time outside of study by giving back to the UQ and broader community. Motivate others to pursue their dreams by sharing your own experiences as a mentor, volunteer for a worthy cause, or use your voice to represent your fellow students. Empower others, make an impact and embrace university life.

Volunteering
Build your employability skills and extend your professional and personal network while contributing to a worthy cause. UQ can help you find local volunteering opportunities and link you with a variety of external organisations within Queensland. Whether you want to help out around campus with events or volunteer in your local community, we can get you connected.

Student representation
Are you a strong communicator and problem solver? Amplify the student voice through active engagement on committees, boards and advisory groups at UQ. Student representatives work closely with staff members in a positive and mutually respectful way to proactively shape and impact decision-making to enhance the student experience.

Mentoring
Share your lived experience for the benefit of others to help create a supportive UQ community.
With individual and group mentoring opportunities available on an ongoing or short-term basis, your mentoring can be flexible to work around your study. Help secondary school students pursue their career aspirations, assist UQ’s diverse community to practise their language skills, or guide new-to-UQ students in their transition to university life and help to build their sense of belonging.

Student-staff partnerships
Create change in the UQ community by working with staff to achieve mutually beneficial outcomes. Student-staff partnerships aim to create a cultural transformation at UQ, allowing students and staff to connect as equal partners and collaborators on projects that enhance the UQ community.
In the past, staff and students have worked together to improve course structures and content, transform online learning experiences, and enhance accessibility to health and wellbeing resources and services.

Visit life.uq.edu.au/get-involved to see how you can create change
Entrepreneurship

Imagine launching your own company before you even graduate. For many UQ undergrads, this is their reality.

Visit ventures.uq.edu.au to see how you can get involved.
UQ students have created:

- A propulsion system that will help small satellites move in space.
- A subscription diabetes service to ensure people living with diabetes never run out of medical supplies.
- Headphones for people with hearing loss by using a combination of advanced audio technology.

And that’s just the tip of the iceberg. If you have ideas, we want to hear them. If you’ve got ambition, we want you to pursue it.
Health and wellbeing

Health and wellbeing are essential to the UQ student experience. With a healthy mind and body, you’re prepared to tackle any challenge and conquer any obstacle.

During your time at university, you may find yourself needing sound advice, practical strategies for coping, physical and emotional support, or just a friendly face to talk to. UQ’s comprehensive health and wellbeing services cover physical, sexual, spiritual and mental health. You can seek them out for everything from managing stress and anxiety to filling out a routine medical prescription.

We also have a range of one-on-one and group programs, activities, events and initiatives to encourage positive behaviours and habits that will set you up for success in your studies.

We’re here to support you in all aspects of your new-found student life.

Discover our full range of health and wellbeing services.
Support services

Healthcare
UQ Health Care is a general practice specialising in the physical and mental wellbeing of students and staff. Additional services include sexual health, travel medicine, immunisations and skin checks. Find UQ Health Care at the UQ St Lucia Medical Centre, Dutton Park and the UQ Gatton Medical Centre, or visit uqhealthcare.org.au to discover all their available services.

Counselling
UQ provides counselling services for students, including 10 free counselling sessions each year. Appointments can be arranged face-to-face, via phone or video call, or by joining a group session. We also offer specialist sexual misconduct support.

Resources
We provide a wide range of self-help health and wellbeing resources for our students. From recognising the signs of anxiety, to managing sleeplessness and stress, there are helpful tips and strategies students can implement daily to improve their overall wellbeing. We also provide a full suite of information on sexual health, including facts, referrals and advice.

Workshops and events
From mindfulness meditation and yoga, to promoting wellbeing through art, UQ hosts a variety of workshops throughout the year to help students improve their wellbeing. We participate in a range of health awareness weeks and days, including Mental Health Week, Women’s Health Week and R U OK? Day. During exam time, we engage with local animal charities to bring puppies to campus for cuddles to help ease stress and anxiety.

Safety on campus
We are proactive about safety across all our campuses. Students can use the free after-hours safety bus at St Lucia or contact security to request a safety escort to their car or public transport. Our campuses also have emergency call points, and security personnel regularly patrol the area to ensure the safety and security of everyone on campus.

SafeZone app
UQ SafeZone is a free smartphone app that connects staff and students with Security and emergency services during a first-aid or emergency situation on UQ campuses and sites.

Learning Advisers
Whether you want to build on your existing performance or focus on a particular area of challenge, Learning Advisers are a crucial resource for undergraduate and postgraduate students on their journey to greater success. Our Learning Advisers work one-on-one with students to ensure they have access to the materials and resources they need for academic success. They run a multitude of workshops and drop-in sessions, and their resources are available on Blackboard and on their study skills webpage.

Student Advisers
Our Student Advice Team can help you with a wide range of professional and confidential services. This includes support for both domestic and international students, diversity and inclusion, welfare and wellbeing.
UQ Living

Accommodation for every journey. Beyond your books and classes, where you choose to live is also part of the learning journey. Whether you want to experience UQ living on campus or in accommodation outside of university, we’re here to help curious minds feel right at home.

On-campus living
Welcome to a truly immersive university experience. Join us on campus and connect to a community that centres around you and your education.

UQ Residential Colleges
Make lifelong friendships in a welcoming student community. Our 10 residential colleges provide a place where you can make memories and connections that stay with you long after graduation:
• Cromwell College
• Duchesne College
• Emmanuel College
• Grace College
• International House
• King’s College
• St John’s College
• St Leo’s College
• The Women’s College
• Union College.
Living in a UQ college also means access to:
• a welcoming, collegial community
• 24/7 onsite staff support and pastoral care
• well-established academic communities and alumni networks
• inter-college sporting, cultural, community and social activities
• outstanding leadership, career mentoring and wellbeing programs.

With their unique and historical connection to the University, UQ colleges have an ideal on-campus home for everyone.

Gatton Halls of Residence
If you’re studying at Gatton, you can stay in the Gatton Halls of Residence. The Halls have provided our students with a home since 1897 and offer a strong community atmosphere on campus. With 436 well-equipped rooms, there’s a place for you at Gatton.

UQ Residences
Kev Carmody House is UQ’s brand-new student residence exclusively for UQ students. Located in the heart of our St Lucia campus, Kev Carmody House has the convenience of being just minutes away from classes, and it features:
• 610 light-filled and spacious one-bedroom rooms with ensuites
• a wide range of social areas to cook and catch up with new friends
• world-class facilities and a stunning rooftop pool deck
• an engaging student life program.
More than a place to study, Kev Carmody House is a true home on campus where you can belong and thrive in a vibrant community to call your own.

Guaranteed accommodation
When you apply through UQ Guaranteed Accommodation, you’re able to secure your accommodation prior to arriving in Brisbane and commencing studies at UQ. The UQ Residential Colleges (on campus) and UQ Approved Providers (off campus) set aside a guaranteed number of rooms so you’re able to compare, choose and secure the most appropriate accommodation easily.
Find out more at study.uq.edu.au/guaranteed-accommodation

Off-campus living
From city living to suburban share houses, you’ll find a place to stay in no time.

Purpose-built student living
Join students from universities across Brisbane at one of our recommended student accommodation providers. There’s a variety of studio, single-bedroom and twin share options available.

Private housing
Would you like to branch out from the uni community? You might like to share a house or apartment with other people. Brisbane’s rental market features everything from low-cost share houses to high-rise apartments, while Gatton offers a range of affordable share houses. To find a room, apartment or house, first check our UQ Rentals database at rental.uq.edu.au. Alternatively, there are private rental accommodation websites, and you can rent directly from real estate agents.

Visit accommodation.uq.edu.au to discover your new home

Accommodation scholarships available
Our campuses

If you want the full university student experience, you can’t go past UQ’s beautiful, spacious campuses. Our campuses are lovingly and cleverly designed, have strong connections to Queensland’s history, and they’re built just for you – our future students and future change makers.

UQ has 4 campuses in and around Brisbane focused on teaching and learning, as well as an impressive array of research facilities across Queensland.

- **St Lucia** is our largest and main campus in Brisbane, where most of our programs are taught.
- **Gatton** is our regional campus, located about an hour from Brisbane, where our agriculture, plant and veterinary sciences students learn.
- **Herston**, located just 5km from Brisbane’s CBD, is our specialist campus for health and medical teaching and research.
- **Dutton Park**, located 5km from the Brisbane CBD, is home to the UQ School of Pharmacy and adjoins the Princess Alexandra Hospital.

Our campuses are certainly built for convenience and sustainability, but they’re also built to encourage excellence and inspire greatness. They’re more than a bunch of buildings fit to serve practical purposes. There’s a little bit of magic when you walk through the sandstone cloisters in the afternoon light, when you breathe in the smell of hay and horses and dewy grass in the morning, or when you stand still in the bustling, light-filled corridors and take in the atmosphere of something bigger than yourself.

We want you to experience that little bit of magic every day.

Visit [campuses.uq.edu.au](http://campuses.uq.edu.au) to learn more about our campuses
Food
UQ St Lucia is full of cafe and food options. With great coffee and bakery food, salad stations, pizza, noodles, bubble tea, juice bars and more, you won’t go hungry or thirsty. We have options for all dietary requirements including vegan, vegetarian, halal, gluten and dairy free. Whether you’re looking for fine dining to celebrate those important milestones, or a quick bite to stave off the pre-lecture hangries, we’ve got you covered.
Visit uqu.com.au/feeding-u to explore the menu.

Retail
You don’t have to leave campus to do your shopping when everything you need is on your doorstep. There’s a bookshop, where you can also sell your second-hand books, a hairdresser, a travel agent, a post office, the UQ Shop, the official merchandiser of UQ, and a Wednesday market offering handicrafts, gifts, flowers and fashion. Grocery stores are only a short walk away.

Entertainment
You’ll never have a shortage of things to do and see at UQ St Lucia. Catch some live music, join a book club, attend a movie night or tour one of the 5 museums. The campus also hosts its fair share of festivals, which incorporate live theatre, art installations, concerts and large outdoor dining xperiences. Exciting competitions and giveaways happen regularly around campus, and there are always wellness activities and relaxation sessions taking place too. With so much going on, it’s easy to meet new people and soak up that iconic university culture.

Fitness and sport
You can access UQ Sport venues all year at discounted student prices. There’s a cardio and weights gym; 50-metre and 25-metre pools; athletics track; floodlit tennis courts; basketball; netball and beach volleyball courts; synthetic pitches; cricket nets; playing fields and much more. With a massive range of social and competitive sports programs and clubs to join, you’ll find it easy to stay active.
Visit uqsport.com.au to explore your options.

Libraries
The library is your gateway and navigator into the world of academic information. Our staff and resources are here to help you find the answers to your questions. With safe and welcome learning spaces, a world-class collection, and approachable staff we can connect you with everything you need to succeed in your studies.
Visit library.uq.edu.au to see how our libraries can support your study.

Healthcare
There’s a GP, dental clinic, allied health clinics and pharmacy on campus to fulfil your medical and health needs. Students with a Medicare card can have their consultations with a doctor bulk billed at the UQ St Lucia Medical Centre.
Visit uqhealthcare.org.au for a full list of our health services.
Our regional campus is located near the town of Gatton, 87 kilometres west of the Brisbane CBD (around an hour’s drive). It offers a laid-back and friendly lifestyle with on-campus accommodation, a publicly accessible motel, and a variety of sporting facilities.

**Teaching and research facilities**
The campus houses production animals, horticultural fields, a plant nursery, post-harvest facilities, research laboratories and greenhouses, a wildlife facility, specialist veterinary and equine hospitals, and some of the best animal teaching facilities in the southern hemisphere.

**Library**
The library is your gateway and navigator into the world of academic information. Our staff and resources are here to help you find the answers to your questions. With safe and welcome learning spaces, a world-class collection, and approachable staff we can connect you with everything you need to succeed in your studies. Visit library.uq.edu.au to see how our libraries can support your study.

**Student Central**
Visit Gatton Student Central in the NW Briton Annexe to collect your student ID card, for advice from Faculty of Science staff on your program, or to book an appointment with a Student Services counsellor or study adviser.

**Free inter-campus bus service**
UQ provides a free inter-campus bus service between UQ Gatton and UQ St Lucia for students and staff.

**Food and retail**
You can buy food and drinks and catch up with fellow students at the Coffee Pod, Dining Hall and Walkway Cafe. Whether you want a sit-down hot or cold buffet meal, a tasty snack or just a grab-and-go treat, you’ll find a variety of food options on offer. There’s a bookshop where you can buy and sell books, and purchase a large range of stationery, lab coats, software and gifts at competitive prices. A post office is located next to Gatton Student Central.

**Healthcare**
UQ Gatton Medical Centre looks after the health needs of UQ staff and students on campus. Students with a Medicare card can have their consultations with a doctor bulk-billed. Visit uqhealthcare.org.au/gatton for a full list of our health services.

**Entertainment**
The central walkway is the hub of entertainment at Gatton, with a range of events and festivals for students and staff. Keep an eye out around campus for what is taking place throughout the year. Join a social, sporting, academic or special interest student club or society, or take part in a range of wellness activities on offer at the campus.

**Fitness and sport**
UQ Sport Gatton is home to a heated 25-metre pool, as well as a gym equipped with extensive weights and cardio equipment. A number of group fitness classes are offered each week, or you can grab a friend and head to the squash, tennis and basketball courts, cricket nets, indoor sports hall, or one of 3 playing fields. Visit uqsport.com.au/gatton to see how you can get active.

**Take a virtual tour of Gatton campus**

18 DOMESTIC UNDERGRADUATE UQ GUIDE 2025
Herston

Just 5 kilometres from the Brisbane CBD, UQ Herston is our specialist campus for health and medical teaching and research. It shares premises with the Royal Brisbane and Women’s Hospital (RBWH) and the QIMR Berghofer Medical Research Institute, creating a health-focused community where students gain practical experience alongside industry professionals and leading researchers.

Teaching and research facilities
UQ Herston is home to our Medicine, Dentistry and Public Health programs, as well as state-of-the-art clinical facilities including:
• Oral Health Centre
• RECOVER Injury Research Centre
• UQ Centre for Clinical Research (UQCCR)
• Surgical, Treatment and Rehabilitation Service (STARS)
• Queensland Aphasia Research Centre
• Integrated Pathology Learning Centre (IPLC)
• Herston Imaging Research Facility (HIRF).

STARS is one of the largest tertiary specialist rehabilitation centres in the southern hemisphere, accommodating UQ staff, researchers and students from nursing, occupational therapy, physiotherapy, speech pathology, audiology, nutrition and dietetics, social work and rehabilitation medicine.

Food and retail
Head to Cafe Dose for your coffee fix and to connect with the Herston community. There’s also a post office for your convenience, and food and retail outlets at RBWH and STARS are just a short walk from your classes.

Life on campus
You can participate in various events and activities held throughout the year to make new friends and relax between classes. These events include arts and crafts, free food, entertainment, and more. Additionally, the Student Hub provides a range of support services throughout your university life, including counselling or learning adviser appointments, where you can get assistance with your assessments. The Student Hub is also a great study spot, equipped with microwaves and toasters for your convenience.
Dutton Park

A short distance from the St Lucia campus, UQ Dutton Park is a health and biotechnology research and teaching hub. The campus is located in a vibrant research and innovation precinct, with an expanding health, biomedical and environmental sciences sector.

Teaching and research facilities

Across the river from St Lucia, Dutton Park is situated within Brisbane’s innovation corridor. It is the primary teaching and research location for UQ’s School of Pharmacy and is home to the Queensland Alliance for Environmental Health Sciences (QAEHS) and the Cornwall Street Medical Centre (UQ Health Care). It is adjacent to the Translational Research Institute, housing UQ’s Frazer Institute, and has strong connections with health and government partners.

The campus, previously known as the Pharmacy Australia Centre of Excellence (PACE), adjoins the Princess Alexandra (PA) Hospital and is nearby the Mater Research Institute-UQ in South Brisbane.

Food and retail

Pacemaker Cafe provides coffee, cakes and light meals. Other cafes and coffee shops are located throughout the hospital precinct.

Healthcare

Cornwall Street Medical Centre at UQ Dutton Park looks after the health needs of UQ staff and students, as well as the broader community and includes a 7-day Medicare Urgent Care Clinic where students with a Medicare card can have their urgent medical treatment with a doctor bulk billed.

Within Cornwall Street Medical Centre, you can access the onsite Pharmacy and a range of allied health and specialist medical services. Visit cornwallstmc.com.au for a full list of health services.
Learning at UQ

Our teachers have a real passion for helping their students reach their full potential. They also happen to be the most awarded university educators in the country, recognised for transforming the way students learn.

It’s not just about what you learn, but how you learn. You’re going to need problem-solving skills, a growth mindset, creativity and adaptability in your future. That’s why our teachers embed these skills into your everyday studies. You’ll graduate with the knowledge and know-how for your industry of choice, as well as the capabilities and mental prowess that will help you thrive in any environment.

Our teachers are experts

Our teachers write the texts that are used for teaching. They produce research papers every year, contribute to international conversations in their fields, and their work appears in the media and influences government policy. This knowledge is brought into the classroom so you can address the latest issues, ideas and challenges with their guidance and support.

Academic support

Set yourself up for success with our academic support team, covering topics such as:

• academic writing
• time management
• learning and exam preparation
• appointments with Learning Advisers.

Courses for the future

We design our courses in consultation with educational experts to maximise your employability when you graduate. Our teachers also consult students in their decision-making and planning processes to ensure course material is exciting, fresh and transformative. This means you can personally play a role co-designing coursework alongside the best educators in Australia.

Practical learning

Our world-class facilities provide the perfect place to develop your skills and expand your knowledge, but so much of your learning at UQ will happen outside the classroom. From work placements and projects to industry workshops, fieldwork, studio time and global exchanges, you’ll have access to many opportunities during your studies to apply what you learn in a range of practical settings.

UQ has received more awards for university teaching than any other Australian university.
Our facilities

UQ is famous for its beautiful campuses, and these are home to the kind of cutting-edge resources and facilities that draw the best and brightest from around the world. We continually evolve and transform our spaces, so we’re always at the forefront of technology and best practice.

We have everything you would expect from a prestigious university – libraries, study nooks, industry-relevant equipment, makerspaces, studios and labs. But we also have all the facilities of a world-class city – museums, parklands, lakes, community gardens, greenhouses, solar farms, retail and medical facilities, farms and harvest facilities, vet hospitals, gyms, sports facilities, kindergartens, and homes.

UQ is more than a place to study. It’s a thriving community bursting at the seams with ambition and possibility.

“At the intersection of engineering and the medical field, my journey at UQ has been marked by exploration and innovation, with a focus on impactful rehabilitation technology. The academic rigor and research opportunities provided by UQ have been instrumental in honing my skills and shaping my contribution to the exciting field of rehab engineering.”

Sami Kaab
Bachelor of Engineering (Honours) graduate
Global experiences

Going on an international exchange is a life-changing experience. You could be jetting off to Copenhagen, Boston, Seoul, Osaka, Santiago – in fact, we have more than 130 partner institutes in 30+ countries.

Global experiences help you develop independence, maturity and other important life skills that enhance your employability and enrich your global mindset.

Semester-based exchange
Spend a semester living and learning in another country. Living abroad is the adventure of a lifetime. You could learn a new language, live like a local, and create friendships that will last forever. Your studies will count towards your degree just as if you undertook them at UQ.

Short-term experiences
If a full semester or year of exchange is not for you, you might prefer a short-term experience. You can study a course for 2-6 weeks overseas during the winter or summer break, and you may be able to get credit for it too.

Learn a language alongside your degree
In a global economy, the ability to communicate with a wide range of people is invaluable. Undergraduate students can study a Diploma in Languages alongside any UQ program.

UQ offers Queensland’s most comprehensive selection of languages, and you can choose to study up to 2 languages: Ancient Greek, Chinese, French, German, Indonesian, Japanese, Korean, Latin, Russian, Spanish, or Chinese Translation and Interpreting.

Adding language studies to your undergraduate degree opens up a world of new and exciting opportunities and may be one on the best moves for your future career.

International internships
Imagine jetting off to Tokyo, Buenos Aires, or London for an international internship. That means a real workplace, with a real role, working on real projects in other countries. Learn on the job while you enjoy exploring new neighbourhoods, discovering local delights and making lifelong friends. Some internships are offered virtually.

Worldwide networks
UQ has more than 311,000 graduates living in 187 countries. Our alumni are passionate about giving back and investing in our future leaders. You can tap into this powerful network of expert support through mentoring, social experiences and professional development opportunities.

Global Startup AdVentures
Learn alongside a startup in some of the world’s most vibrant startup hot spots including San Francisco, Shanghai, Shenzhen and Singapore. (See page 11 for more details).

Visit study.uq.edu.au/enhance-your-employability to discover how you can take your studies globetrotting
Ready for any future

Some universities prepare you for your first job. At UQ, we want to ensure you’re ready for any possible future. That’s why we focus on empowering you with the techniques and capabilities to help you navigate the world with certainty and confidence.

**Employability**

Our approach to employability goes beyond simply getting a job. We focus on how you can develop abilities and mindsets to perform effectively in the workplace, create new opportunities, make an impact, and succeed in whatever path you choose. We have dedicated employability teams across UQ who can empower you to graduate with a full suite of career capabilities.

**UQ Graduate Attributes**

We believe in shaping graduates who are not only academically accomplished but also equipped with qualities that make a difference in the world. Our UQ Graduate Attributes represent the essence of what a UQ graduate embodies. Our graduates are:

- accomplished scholars
- courageous thinkers
- connected citizens
- culturally capable
- influential communicators
- respectful leaders.

As a UQ student, you’ll find that these attributes not only guide your learning journey, but also make you stand out to future employers and professional communities. Your UQ qualification is more than just a degree; it’s a testament to your readiness to excel in your career and contribute meaningfully to the broader community.

**Workplace learning**

Internships, placements and networking will be part of your study experience at UQ. Learning in real workplaces gives you the opportunity to put your learnings into practice while discovering what it’s like to work day-to-day in your industry. It’s also the perfect way to grow professional connections before you graduate.

**Mentoring**

With one-on-one, small group and peer community options available, our mentoring programs give you valuable leadership and guidance through all stages of uni and beyond. Whether you’re getting advice about how to settle into uni life, developing professional connections or creating work opportunities, connecting with a mentor – or becoming one yourself – will help you build impactful relationships.

**Volunteering**

Build your skills and extend your professional and personal network while contributing to a worthy cause. UQ can help you find local volunteering opportunities and link you with external organisations both within Australia and worldwide.

Visit [employability.uq.edu.au](http://employability.uq.edu.au) to see how we can help prepare you for your future.
Career Development
Our award-winning Career Development team can help you plan your career, develop your capabilities and gain a competitive edge. We offer workshops in finding work, networking, writing résumés, applying for jobs, interviewing skills and presentation techniques.

Career portals
UQ offers an exclusive online job board for students and graduates featuring vacation work, volunteering, internships and graduate employment opportunities from more than 3,000 employers. Our Global Grad careers search portal is just for international students, with Australian and international companies posting work opportunities regularly.

Employer events and expos
With multiple employability events throughout the year, you can speak with employers from a diverse range of industries and backgrounds to find the right job for you. Most employers offer roles in graduate recruitment programs, and some offer vacation work, internships, work experience, scholarships and co-op programs.

Employability Award
The Employability Award gives you the chance to build capabilities that future employers value, such as leadership, teamwork, communication, problem solving and cultural awareness. To qualify for the award, you must complete 100 hours of work experience, 100 hours of volunteering and 5 supplementary activities, then communicate your potential through an application process. It’s free to join and you can register at any stage of your studies.

My Career Adviser
My Career Adviser is an online flexible career development learning resource that provides an audio-visual material, readings, web pages, modules, mini-assessments, and Capstone Projects. Available to all students, this platform is also embedded within courses across UQ. It provides useful resources, engaging activities, and supports your career development journey at UQ and beyond.

Our free online course
EMPLOY101x will help you unlock your career potential and market yourself to employers. Visit edx.org/course/unlocking-your-employability to find out more.
Set yourself on the path to success with an undergraduate degree from one of the world’s most highly regarded universities. When employers see a UQ degree on your résumé, they know you’ve got what it takes to deliver value and hit the ground running.

**Bachelor’s degrees (programs)**

Bachelor’s degrees usually require between 3 and 5 years of full-time study, and they generally provide knowledge and skills for work in a specialist area. Within a bachelor’s program, you may have to complete compulsory courses and elective courses (normally 2 units each), and you can often choose areas of study. To be awarded a bachelor’s degree, you need to complete the specified total number of units – some of which will be studied in specific areas.

**Diploma in Languages**

Study a Diploma in Languages alongside your undergraduate degree and get the ultimate employability edge. Choose from 10+ languages and spread your extra courses across the duration of your degree to balance your study load.

**Undergraduate diploma**

After you graduate from your bachelor’s degree, you may wish to update your qualifications, broaden your knowledge and/or improve your research skills. The 16-unit (equivalent to one year of full-time study) Diploma in Arts or Diploma in Science could be just the answer. Subject to performance and entry requirements, completion of these undergraduate diplomas could make you eligible for entry to honours or postgraduate programs.

**Honours**

An honours degree provides you with skills and knowledge in a specific area. Some programs at UQ include an honours year (16 units) by default, while others may allow you to opt into an honours year at the end of your bachelor’s degree. Most honours programs at UQ satisfy research training requirements, preparing you to progress into a higher degree by research, such as a Master of Philosophy or Doctor of Philosophy (PhD).

---

“*I chose to study Marine Biology as I grew up around the ocean and want to work in a field that allows me as much ocean time as possible. Some of my highlights while studying at UQ has been the field trips to distant islands and the many lab hours that gives you a hands-on perspective to what is taught in lectures. UQ is also a very research intensive university, allowing for exciting opportunities while studying.*”

Isaac Borud
Bachelor of Science (Marine Biology) student
Dual programs
A dual program enables you to study 2 bachelor’s degrees at the same time, in a shorter period than if you were undertaking them separately. This means you can study several areas of interest at once, graduate with 2 qualifications, and gain extra knowledge and skills to give you a competitive edge in the workforce. If one program has a higher entry score than the other, the higher score applies. See the dual programs quick reference table on page 78.

Full-time study
An academic full-time load is 8 units per semester in most programs. A student completing 75 per cent or more of the standard academic workload for a program (i.e. enrolled in at least 6 units per semester, or 3 to 4 courses for most programs) will also be eligible for full-time study benefits, such as reduced pricing on public transport.

Study load
A standard study load is 8 units per semester, which is usually 4 courses.

Courses (subjects)
A course is a distinct unit of study within a program. Each course is identified by a code, title and unit value. Courses are usually completed in one or 2 semesters and most are worth 2 units; however, some have higher workloads and may be worth 4 or 8 units.

Course choice
Course selection varies depending on your faculty and program. Some programs have compulsory (core) courses only; others may allow a restricted choice within categories. Others may offer an extended range of courses (electives) and/or you may have to undertake research projects. Check the requirements of your program.

Master your future
A UQ bachelor’s degree is the solid foundation for a successful career, but you may want to enhance your career prospects by continuing on to postgraduate study after you graduate. UQ offers postgraduate coursework programs to equip you with specialist knowledge, upgrade your qualifications, help you get promoted faster, or pave the way for a research career in a variety of industries or academia. Postgraduate coursework programs are similar to undergraduate programs in that you will attend classes, do assessments, and complete a required number of units to graduate.

Higher degree by research
Doing a higher degree by research will allow you to explore your passions in depth while you contribute to the global knowledge base. The format of your research degree will be determined by you and your supervisors in consultation with the UQ Graduate School.

Visit study.uq.edu.au for detailed information on all of our undergraduate programs
Applying to UQ

Follow these steps to apply to UQ and start on the path to your future.

01 Choose

Choose your program
- Read your program options (see pages 42-inside back cover).
- Visit study.uq.edu.au.

TIP
Check that you meet eligibility, merit and other entry requirements and meet any specific program deadlines.
- To apply for the Doctor of Medicine, follow the Doctor of Medicine application process.

02 Apply

Apply via QTAC
- Apply for admission through the Queensland Tertiary Admissions Centre (QTAC). The QTAC website explains how to apply and the entry requirements you need.
- Visit qtac.edu.au.

03 Accept

Accept your offer
- Log in to the QTAC website.
- Accept your offer.
- Activate your UQ student account.
- Go to my.uq.edu.au/starting-at-uq and follow the instructions.
- Get excited about starting at UQ!
04 Enrol

Enrol in courses
- Access your program rules and course list at my.uq.edu.au/starting-at-uq.
- Choose your courses at my.uq.edu.au/programs-courses.
- Enrol online at sinet.uq.edu.au.
- Select preferred class times via My Timetable (in my.UQ portal).
- Pay fees (see pages 38–39).

05 Prepare

Prepare for Week 1
- Complete the steps at my.uq.edu.au/starting-at-uq.
- Attend a Getting Started session.
- Check if you need to attend any program sessions before Orientation Week.
- Pick up your student ID card.
- Get answers to your questions by emailing starting@uq.edu.au.

06 Let’s go!

Get ready for the ultimate university experience
- Orientation Week – get your first taste of #uqlife with fun-filled events.
- Connect Week – join the social scene, make new friends and link in with your academic circle.
- Instagram (@UniofQld) or TikTok (@UniofQld) your UQ experience to your friends.
What you need for admission to UQ

To gain admission to undergraduate programs, you must satisfy 2 requirements:

• eligibility (satisfy subject prerequisites and other requirements), and
• merit (have a sufficient entry score).

This is a snapshot of common admission information; however, it is not exhaustive. For further information, visit study.uq.edu.au/entry-requirements.

What is eligibility?
All bachelor’s programs at UQ have English as a subject prerequisite. Many programs also have mathematics and/or science subject prerequisites. Subject prerequisites are the assumed knowledge requirements of a program. They can be found in the tables for each program between pages 42 and the inside back cover of this guide.

You need to satisfy a program’s subject prerequisites to be considered for admission. For dual programs, you need to satisfy subject prerequisites for both programs. Subject prerequisites are usually Queensland Year 12 General subjects, but these can also be met through subject equivalents, bridging courses or tertiary courses.

For interstate, International Baccalaureate (IB) and New Zealand equivalencies, see the table, on pages 34 and 35.

Some programs use more than subject prerequisites or entry scores; additional tests, interviews or auditions may be required. Carefully check each program for specific requirements and closing dates.

English language requirements
If English is not your first language, you’ll need to provide evidence of English proficiency. You can do this by passing Queensland Year 12 English (or equivalent) or meeting the required proficiency test and test score for your desired program. To discuss English proficiency requirements, contact UQ Admissions.

What is merit?
Once you satisfy a program’s subject prerequisites and any other requirements, admission is based on your ATAR or selection rank. These range from 30.00 or less to 99.95 (with 99.95 being the highest attainable). ATARs are allocated to applicants who are current Australian Year 12 students, and selection ranks are allocated to all other applicants. These scores help us compare different types of study, experience and qualifications to be assessed and compared for entry to a particular program.

Once you have completed one year (16 units at UQ or equivalent load at another university) of full-time bachelor’s-level (or higher) study, your selection rank will be based solely on your higher education study.
Admission pathways

If your entry score isn’t what you expected, or if you don’t meet a program’s entry requirements, several pathway options are available.

**Bridging study**
Successfully completing an approved bridging program is another pathway to university study. Approved bridging studies equip students with an appropriate level of knowledge in the subject areas deemed necessary to undertake tertiary study successfully.

You can use a bridging program to:
- satisfy a subject prerequisite
- gain an entry rank
- gain foundational knowledge in a selected area
- prepare for future tertiary study.

If you have completed one full year or more of recognised bachelor-level (or higher) study, bridging study cannot be used to derive an entry rank, but it can be used to meet prerequisite subjects.

If you have completed less than one full year of recognised bachelor-level (or higher) study, bridging study can be used to derive an entry rank in some cases.

**Certificate IV in Adult Tertiary Preparation**
This program offers preparatory studies designed for adult learners and is studied online via scheduled evening classes. Completion of this program will enable you to apply through QTAC for an approved ATAR, whether you are a recent school leaver or a mature-aged student who has been absent from a formal study environment for some time. To get the full qualification, you will need to meet the training and assessment requirements for the 3 core and 6 elective units of your choosing. If you are not interested in the full program but need a prerequisite to gain entry into your required field of study, UQ College has that option for you. Choose either a Pure Maths, Chemistry or Biology specialisation.

Courses:
- Language and Learning – 3 core units (English)
- Mathematics – 2 elective units (General Mathematics)
- Pure Mathematics – 3 elective units (Mathematical Methods)
- Biology – 2 elective units
- Chemistry – 3 elective units
- Psychology – 2 elective units.

Minimum grade required: Pass. Maximum selection rank attainable: 91.00 (in combination with Special Tertiary Admissions Test (STAT); maximum selection rank = 98.95).

**UQ College Tertiary Preparation Program**
This program is an enabling program delivered over 3 terms (32 weeks) commencing in February each year that enables you to learn the core academic skills required for entry into undergraduate study at The University of Queensland. The program is delivered in person at the St Lucia campus and can help you to meet both subject prerequisites and obtain an entry rank.

Maximum selection rank attainable: 93.00 (completion of 5 courses made up of 2 core and 3 electives from a selection of 12 may derive a selection rank; contact UQ Admissions for advice).

Core Courses:
- Academic English
- General Mathematics
- Mathematical Methods.

Elective Courses:
- Accounting
- Behavioural Science
- Biology
- Business Management
- Chemistry
- Design
- Economics
- Health and Nutrition
- Humanities and Social Sciences
- Information Technology
- Physics
- Research.

**UQ College**
07 3346 6770 | info@uqcollege.uq.edu.au
uqcollege.uq.edu.au

**Intensive bridging courses**
UQ College delivers intensive courses in Mathematical Methods, Chemistry, Physics and Biology (November/December – 4 weeks). For details visit uqcollege.uq.edu.au/study-options/bridging-program.

Some other providers and institutions also provide intensive summer bridging options. Contact UQ Admissions for information on approved providers.

**Unilearn**
Unilearn subjects can be used to meet subject prerequisites only. The subjects are self-paced distance education modules based on Year 12 level subjects, delivered online through Open Universities Australia.

- Senior English (English)
- Introductory Mathematics (General Mathematics)
- Senior Mathematics (Mathematical Methods)
- Biology
- Chemistry
- Physics.

Minimum grade required: Grade of Pass.

**Learning Network Queensland**
Delivered through Open Universities Australia.
07 3826 8392
unilearn.net.au

**Special Tertiary Admissions Test (STAT) and employment experience**
You may be eligible for other admission pathways if you:
- didn’t complete Year 12
- didn’t achieve the required entry score for your preferred program, or
- are a mature-aged applicant (18 or above and not currently completing Year 12).

Two options are available:
- Special Tertiary Admissions Test (STAT)
- employment experience.

This pathway isn’t suitable for applicants who have completed at least one full-time year of bachelor’s-level (or higher) study or for applicants who are completing Year 12 in the year of tertiary application.

**Tertiary study pathway**
This pathway involves studying an alternative program to improve your entry score or meet subject prerequisites. Please note that once you have attempted one year of full-time study, we will no longer use your Year 12 results or any other qualification. We recommend that you complete one full year (16 units) of bachelor’s degree study as a pathway to higher-demand programs (such as Dentistry or Veterinary Science), as the entry ranks allocated to bachelor’s degree studies totalling less than one full-time year are capped. Depending on your academic performance, your new entry rank could be higher than your previous rank. For more information on how to improve your entry score, contact UQ Admissions.

study.uq.edu.au/tertiary-study-pathway

To ensure you are choosing the admission pathway that’s right for you and meets the requirements for your chosen program, contact UQ Admissions.

admissions@uq.edu.au | 07 3365 2203
study.uq.edu.au/pathway-options
Admission schemes

UQ has a range of admission schemes to help students get into their preferred programs.

Many admission schemes use adjustment factors to boost your selection rank. Common types of adjustment factors include:
- subject adjustments
- location adjustments
- equity adjustments.

The maximum number of adjustments you can achieve across all schemes is capped at 5.

Rural Access Scheme

If you’re an applicant from an Australian rural or regional area, UQ supports you by boosting your entry score. Eligible applicants from Australian rural and regional areas can have 2 adjustments added to their selection rank for selected undergraduate programs.

Doctor of Medicine provisional entry applicants must apply for the Rural Access Scheme via QTAC no later than 30 September 2024.

UQ Subject Incentive Scheme

All Year 12 students are eligible for the UQ Subject Incentive Scheme, which provides up to 5 adjustments towards your selection rank for:
- passing an approved language other than English subject, or equivalent as determined by UQ (2 adjustments)
- passing Queensland Senior Specialist Mathematics, or equivalent as determined by UQ (2 adjustments)
- successfully completing a university-level enrichment course concurrently with your senior program, such as the Enhanced Studies Program (one adjustment).

Please note that adjustments are not added onto ATAR scores: each ATAR score is converted to a selection rank, and adjustments are added to these. Students are then assessed based on their new rank.

UQ Link Program

Prospective students who have experienced significant financial disadvantage may be eligible to receive 5 adjustments towards their selection rank to study at UQ, a $3,000 per year scholarship for up to 3 years*, and access to a range of student support services.

To apply for this scholarship, you need to complete the Financial Hardship section of QTAC’s Educational Access Scheme when submitting your QTAC application. This scheme is open to applicants who have not previously completed any tertiary study at bachelor’s level or above.

*Ongoing eligibility conditions apply.
Deferring / gap year
If you wish to defer (i.e. delay starting a program), you should respond to QTAC by the offer response date with the defer option. Deferment of up to 12 months is automatically granted for most undergraduate programs. UQ will then email you in April advising you of the enrolment process for the following year.

You cannot defer a mid-year entry offer.
If you wish to postpone starting until Semester 2, you should contact UQ Admissions to confirm if this option is available to you.

You are not permitted to undertake study at a bachelor’s level or higher elsewhere while on deferment – you will lose your place if you do so.

Mid-year entry
QTAC offers a year-round application process, allowing applicants to select programs commencing in Semester 1 and Semester 2 on a single application.

Changing universities
If you’re currently studying at another university and want to apply to UQ, apply through QTAC for a place in a UQ program.

Credit for previous study
You may be eligible for credit towards your UQ program if you have undertaken previous studies, including some International Baccalaureate subjects. Once you have been offered a place and enrolled in a UQ program, please forward a request for credit to the relevant faculty.

Diploma in Languages
Once you have received your bachelor’s degree offer from QTAC, you can apply directly to UQ for the concurrent Diploma in Languages.
Equivalent prerequisites and entry scores

The tables below show recent equivalents to Queensland senior subjects and entry scores for other Australian states. Please note that the list of equivalents is not exhaustive.

**Prerequisite subject equivalents**
**Interstate, International Baccalaureate and New Zealand**

International Baccalaureate

Results in the IB Diploma are converted to a common national measure of Year 12 student achievement, called a ‘combined rank’, before being assigned a QTAC selection rank for Queensland tertiary entrance purposes. Combined ranks are an indicator of how well a student has performed in relation to the Australian Year 12 cohort, expressed in a scale extending from 99.95 (maximum) to 30.00.

For IB Diplomas completed since 2007, an annually revised conversion is used, so conversions may fluctuate from year to year.

See the current IB admission score to QLD rank conversion tables
Scan the QR code or visit study.uq.edu.au/ib-conversion

This list is not exhaustive; please contact UQ Admissions on 07 3365 2203 or at admissions@uq.edu.au to confirm subject equivalents for subjects that do not appear in the table above.

Attainable selection rank

If you have undertaken prior study or employment, you may be able to convert this to a selection rank. These tables provide a guide for converting previous study and/or qualifications. To ensure you’re choosing the admission pathway that’s right for you and meets the requirements for your chosen program, contact UQ Admissions.

admissions@uq.edu.au | 07 3365 2203

Tertiary studies

Bachelor or higher level study of less than one full-time equivalent year (1 FTE) can be used to derive a selection rank. However, the selection ranks assigned to these studies are usually capped and less generous. Therefore, shorter duration of tertiary studies is insufficient to gain entry to the more competitive programs (for example, Bachelor of Veterinary Science (Honours)).

For multiple attempts of tertiary study equivalent to less than one full-time year, UQ derives selection ranks from the total cumulative GPA. When combining, if the cumulative duration totals less than one full-time year, the selection rank derived will only be used if it advantages the applicant.

The following table shows the maximum selection ranks attainable for studies that are less than one full-time year in duration:

<table>

The maximum selection rank attainable for the completion of one full-time year or more of bachelor level study is 99.90. Once you have completed the equivalent of one full-time year of bachelor or higher level study, you’ll be assigned a selection rank solely on the basis of this study and all other qualifications at a lower level will be disregarded.

If you have completed at least one full-time year of tertiary studies, please refer to study.uq.edu.au/tertiary-study-pathway.

When assigning selection ranks to one full year or more of tertiary study, we can allocate more generous rankings to studies undertaken at UQ. Students wishing to improve on a rank obtained from another institution may wish to consider completing one full year (16 units) of bachelor or higher studies at UQ.

Where students have completed study at both UQ and other institutions (totalling one full year or more of study), the GPAs are not combined together to calculate the rank. Contact UQ Admissions for further advice and clarification.

Certificate and diploma studies

Completed Australian Qualification Framework (AQF) certificate or diploma qualifications may be considered for tertiary admission and can derive a selection rank. Competency-based studies can be combined with the results of the Special Tertiary Admission Test (STAT) to raise the base selection rank. The new rank will be allocated using the overall score from the STAT and the level of study. The following table shows the maximum ranks attainable for competency-based study:

<table>
<thead>
<tr>
<th>COMPLETED QUALIFICATIONS</th>
<th>MAXIMUM SELECTION RANK</th>
</tr>
</thead>
<tbody>
<tr>
<td>Certificate III (competency-based)</td>
<td>88.00</td>
</tr>
<tr>
<td>Certificate III (competency-based) + STAT</td>
<td>89.95</td>
</tr>
<tr>
<td>Certificate IV (competency-based)</td>

</tr>
<tr>
<td>Certificate IV (competency-based) + STAT</td>
<td>89.95</td>
</tr>
<tr>
<td>AQF Diploma (competency-based)</td>
<td>82.00</td>
</tr>
<tr>
<td>AQF Diploma (competency-based) + STAT</td>
<td>91.95</td>
</tr>
<tr>
<td>AQF Advanced Diploma (competency-based)</td>
<td>91.00</td>
</tr>
<tr>
<td>AQF Advanced Diploma (competency-based) + STAT</td>
<td>98.95</td>
</tr>
</tbody>
</table>

Note: All subjects must be competent. The list of qualifications is not exhaustive. Qualifications assessed using a graded marking system will be allocated a selection rank based on the grade point average (GPA) the student achieved. Please contact Admissions for advice.

STAT and employment experience

STAT and employment experience enables applicants to apply on the basis of their life skills and abilities instead of formal secondary or academic qualifications and is commonly referred to as ‘mature age entry’. There are no separate sub-quotas for secondary, tertiary or mature-age applications as all applicants must satisfy the same entry requirements.

STAT and employment experience admissions pathways are available to applicants who are 18 years or older, and are not currently completing high school and have not completed one full year of bachelor or higher level studies. These admissions pathways consist of the Special Tertiary Admission Test (2-hour multiple choice aptitude test), paid employment experience and/or other professional qualifications. Please refer to study.uq.edu.au/apply/undergraduate/admission-pathways.

Apply for a scholarship

Make your UQ experience more affordable with the support of a scholarship. You may think you’re not eligible, but you might be surprised.

University-wide scholarships
UQ has a range of scholarships designed to attract, reward and support students from all walks of life. Our scholarships develop and encourage tomorrow’s leaders and offer support to students who might not otherwise be able to attend university.

If you’re completing Year 12 in 2024, or you completed Year 12 in 2023 and are on a gap year, you may be eligible to apply for a scholarship.

UQ Academic Scholarships Program
The UQ Academic Scholarships scheme offers 2 flagship undergraduate scholarships: UQ Vice-Chancellor’s Scholarships and UQ Excellence Scholarships.

Equity scholarships
UQ strongly believes all students deserve equal access to education. Equity scholarships are designed to support students from low socio-economic, disadvantaged or under-represented backgrounds.

Residential scholarships
The UQ Residential Scholarship scheme supports students from low socio-economic or disadvantaged backgrounds, and those from regional and rural areas, to secure student accommodation while they study at UQ.

Indigenous scholarships
At UQ, we don’t want anything to stand in the way of Indigenous students pursuing university education. The Aboriginal and Torres Strait Islander Education Scholarship scheme offers a range of scholarships to support your studies and help you thrive.

Study area scholarships
Many scholarships are offered for certain academic disciplines. These scholarships might be for students enrolled in a specific degree, school or faculty, or for students who are researching or studying a particular topic.

scholarships.uq.edu.au

Employability
UQ offers a variety of grants and loans to help you participate in a range of enriching international and domestic experiences that will enhance your employability.

employability.uq.edu.au/financial-support

Sporting
Elite athlete support
UQ is an elite athlete-friendly university, supporting more than 200 elite-level student-athletes to manage their sport and studies. Dedicated UQ Sport staff, in partnership with UQ, provide academic liaison support to negotiate flexible options for enrolment, assessment and course-related needs.

uqsport.com.au/scholarships

Get in early
Scholarship applications close at different times throughout the year – plan your applications and apply early so you don’t miss out.

scholarships.uq.edu.au

“Getting the scholarship definitely eased the financial stress of moving to Brisbane to begin my tertiary studies. I felt like a huge weight was lifted from my shoulders. I’m able to concentrate on my studies a bit more and put that extra effort into getting the results I want.”

Nathan Sagigi
Bachelor of Clinical Exercise Physiology student
Geoffrey Huey Sattler Indigenous Scholarship recipient
University is a valuable investment in your future. Knowing what it costs will help you manage your money.

**Fees and costs**

**Course fees and student contributions**
Most undergraduate places for domestic students at UQ are funded partly by the Australian Government (Commonwealth support) and partly by you (student contribution). You need a Unique Student Identifier (USI) to obtain a Commonwealth-supported place.

If you’re an Australian or New Zealand citizen, or an Australian permanent humanitarian visa holder and have a Commonwealth-supported place, you may also qualify for the Higher Education Loan Program (HELP) to defer payment of your student contribution and Student Services and Amenities Fee (SSAF). You will need a tax file number to obtain a HELP loan.

Some domestic students will pay full tuition fees. Refer to [study.uq.edu.au/fee-overview](http://study.uq.edu.au/fee-overview) for more information. International students pay full tuition fees.

If you have a Commonwealth supported place, your student contribution amount depends on the fee band level of the courses you choose (see table on page 39).

**Student Services and Amenities Fee**
The Student Services and Amenities Fee (SSAF) is a compulsory fee that goes toward non-academic services for students, such as support services, advocacy, study skills, career development and employability.

UQ levies the SSAF – which was capped at a maximum of $351 for 2024 – according to whether you’re an internal or external student. The fee is indexed annually.

[study.uq.edu.au/ssaf](http://study.uq.edu.au/ssaf)

**Keeping your costs down**
- Investigate the financial support and fee payment options offered by Centrelink [servicesaustralia.gov.au](http://servicesaustralia.gov.au)
- Explore the scholarships on offer (see page 37)
- Enjoy UQ Union’s free and low-cost entertainment and activities, such as Morning Marmalade and Kampus Kitchen [uqu.com.au](http://uqu.com.au)
- Get concessions and student discounts at participating retailers and institutions with your UQ student card.

* On-campus and off-campus accommodation costs are usually lower in Gatton. The cost for a standard resident room in the Halls of Residence in Gatton is from $378 per week.
** Many student accommodation providers include electricity, gas and internet costs in rent. Check with your provider to be sure.
*** These costs assume that the dependent child is not of school age and does not factor in childcare costs.
^ Catered meals are included at UQ Residential Colleges. UQ RES (Kev Carmody House and Walcott Street) does not include catered meals.

This table should be taken as a guide only. Study Australia provides a helpful online Cost of Living Calculator to estimate your weekly, monthly and yearly living costs.

“Studying at UQ taught me the skills to face an unknown future through a range of hands-on experiences. I apply the knowledge that the lecturers taught us and put it into practice every day. I learnt how to talk to businesses and to farmers. That’s important in agriculture.”

Genevieve Laverty
Bachelor of Agribusiness graduate
Manager – Operations Country Qld – Graincorp
Agriculture, Animal Sciences and Environment

With the world’s population set to increase significantly, the sustainable production of food and fibre must keep pace. We also need to manage and solve environmental problems to preserve habitats and biodiversity as towns and cities expand.

Agriculture and Animal Science
Prepare to shape the future of agriculture and food production. You’ll have access to leading programs across agriculture and agribusiness, as well as veterinary and wildlife sciences.
Our hands-on approach to learning ensures that you will be regularly exposed to industry experts and their businesses to gain the expertise and practical experience needed to become a future leader in your field of study.
At UQ’s specialist regional campus in Gatton, you will learn in some of the best specialist agriculture, animal production, equine, wildlife and veterinary facilities and expertise in the southern hemisphere.

Environment
Learn from Australia’s leading environmental experts in programs that allow you to combine your scientific knowledge with the legal, political and social aspects of conservation and environmental management.
Gain real-world skills to understand and manage our changing planet through industry placements and extensive fieldwork experience in diverse environments and ecosystems, including World Heritage rainforests, the Great Barrier Reef, North Stradbroke Island (Minjerribah) and outback Australia.

Careers
Choose this field if you like these subjects:
- Agricultural science
- Biology
- Business management
- Chemistry
- Earth and environmental science
- Economics
- Geography
- Marine science
- Mathematics
- Physics

Our undergraduate programs can lead to careers in:
- Agribusiness
- Agronomy and horticulture
- Animal production
- Animal health and welfare
- Business and government
- Crop and pasture production
- Ecotourism
- Environmental management
- Environmental science
- Equine facility and herd management
- Farm management
- Food and fibre production
- Food processing
- Food science and technology
- Land management
- Livestock management
- Marine management
- Natural resource management
- Parks and recreation facility management
- Sustainability management
- Veterinary practice
- Wildlife and nature conservation
Bachelor of Agribusiness

Program overview
Discover the commercial world behind agriculture and the value chain that links producers and consumers. As an agribusiness professional, you will use technology and contemporary business practices to manage agricultural enterprises. You will be trained to lead organisations that feed and clothe the world, and apply the latest concepts in marketing, human resource management, finance and operations to local, national and multinational enterprises. Your program has been developed in collaboration with the food and fibre industry and your lecturers bring their industry relevant research into your classes.

You will acquire up-to-date knowledge of farming, agricultural sustainability, food security, supply chain management, and the management of logistics, human resources and marketing. You will participate in industry site visits, case studies and research projects, and undertake a major group project with an agribusiness company in your final year.

Program features
• UQ is ranked 1st in Australia and 4th in the world for Agriculture (Performance Ranking of Scientific Papers for World Universities 2023).

Career opportunities
Graduates work across all aspects of the agricultural sector in managerial or specialised roles relating to supply chain management, distribution, export marketing, financial planning, lending, insurance, commodity trading, policy development, agribusiness research or natural resource management.

More information
Visit study.uq.edu.au or scan the QR code.

Bachelor of Agricultural Science

Program overview
Shape the future of food and fibre production as an agricultural scientist, and help to solve issues like global climate change, food security, sustainability and agricultural productivity. Learn to apply and integrate the scientific, technological, managerial, economic and social principles of agriculture. Build your knowledge to improve livestock and cropping outcomes for small-, medium- and large-scale farming operations. The 3-year program offers you a broad range of courses covering biochemistry, microbiology, genetics, animal nutrition, land use and the environment, agronomic and international agricultural development.

Learn from world-class academics who have an active research focus and strong industry connections and embark on your career with a globally respected qualification. You’ll access some of the best animal and veterinary facilities in the southern hemisphere as well as research greenhouses and more than 1,000 hectares of farmland.

Areas of study
• Agronomy • Animal Science • Horticulture

Program features
• Undertake 120 hours of industry experience to apply your knowledge of current and emerging trends in agricultural innovation.

Career opportunities
Graduates work across Australia and internationally as soil and agronomic managers; animal and plant research scientists; production horticulturalists; livestock nutritionists; agricultural consultants; agricultural business manager; livestock specialists; resource economists; biosecurity inspection officers and government policy advisors.

More information
Visit study.uq.edu.au or scan the QR code.

Bachelor of Environmental Management (Honours)

Program overview
Discover how to critically assess the causes of global environmental problems as you build your knowledge in developing and managing solutions to address them. You’ll gain a foundation in environmental sciences including biology, ecology and geography with the added focus on social, business and economic disciplines including — science-policy analysis. A compulsory industry placement course in your third year will provide you with experience in the workplace and an understanding of the factors involved in the operation and management of environmental issues. Graduate with an internationally respected qualification, with expertise that will set you apart in a competitive job market and provide a pathway to future research or learning.

Program features
• For your final-year research or industry focused project, you will develop and apply evidence-based strategies to sustainably manage complex real-world issues that affect a range of natural or urban environments.

Career opportunities
Graduates work in managerial, research, administrative and educational roles in conservation; environmental assessment and compliance; sustainable agriculture; natural resource management, including coastal, river and catchment systems; policy development; government and commercial consultancies in environmental planning and management; mining and environmental tourism.

More information
Visit study.uq.edu.au or scan the QR code.

Bachelor of Environmental Science

Program overview
Learn from Australia’s leading environmental scientists and gain in-depth scientific knowledge of contemporary environmental challenges. Develop your understanding of our changing planet across aquatic, marine, and terrestrial ecosystems. Investigate the impacts of climate change and how to improve the sustainability of ecosystems. Test strategies to preserve global biodiversity and secure clean water and food.

You will study ecology, conservation, environmental toxicology, natural resources and decision science. Your extensive practical field-based activities will include diverse tropical and sub-tropical ecosystems. Take your expertise, knowledge and passion into workplaces globally.

Program features
• UQ’s field of environmental sciences is ranked 1st in Australia (QS World University Rankings 2023).

Career opportunities
Graduates work as environmental monitors, impact assessors and managers, natural resource managers, national parks and wildlife conservationists, policy advisors, and teaching and research scientists.

More information
Visit study.uq.edu.au or scan the QR code.
Bachelor of Veterinary Science (Honours)

Program overview
UQ’s Bachelor of Veterinary Science (Honours) is a registrable degree program that allows you to practise as a veterinarian. Attracting some of the highest achieving students from Australia and internationally, this program produces veterinarians who are in high demand around the world. As a UQ vet student, you will learn how to diagnose, treat and prevent diseases and injuries in companion, domestic, exotic, wildlife and production animals. You will develop skills and knowledge in veterinary medicine, surgery, anaesthesia and radiology in commonly treated animal species. You will graduate with expert animal handling and clinical skills, with a final year spent entirely in hospitals and clinics.

Career opportunities
Graduates are employed in research, management and education in agriculture and tourism; managing animal welfare and research programs; in government departments researching and managing feral animals; in conservation, land management and ecotourism, environmental consultancy, vertebrate pest and game management, in wildlife sanctuaries and zoos.

Program features
- UQ’s field of veterinary science is ranked 4th in the world (QS World University Rankings by Subject 2023).
- Study Australia’s only internationally accredited undergraduate Veterinary Science program.
- During your degree you will gain work experience in UQ hospitals, farms, veterinary clinics and other animal health enterprises in Australia or internationally.

You will also receive comprehensive biomedical training that can lead to careers in research, industry and government.

Bachelor of Veterinary Technology

Program overview
Develop your theoretical and practical skills to become a para-veterinary healthcare specialist, working in animal health and welfare. You will build a base in biological science by studying the mechanisms of animal disease and diagnostic techniques, clinical aspects of small and large animal health, applied and clinical nutrition, veterinary pharmacology and animal therapeutics. Select from a wide range of elective courses to focus your skills or to pursue an area of interest.

Career opportunities
Graduates typically work as support staff in veterinary practices as veterinary emergency and critical care technicians, veterinary practice managers, animal behaviour and training instructors, animal researchers or supervisors, biosecurity inspectors and project support officers with government agencies.

Program features
- You can also enhance your skills by concurrently enrolling in the Certificate IV in Veterinary Nursing, the Certificate III in Rural Operations or the Farm Ready program.
- Experience at least 80 hours of practical sessions in your first and second years, and off-campus studies of 30 days. In your third year, you will complete a 7-week industry placement in any approved veterinary-related field.

Bachelor of Wildlife Science

Program overview
Learn how to implement and evaluate management and conservation programs for captive and freely roaming wildlife. You’ll study wildlife anatomy, physiology, reproductive biology, breeding, genetics, nutrition and health. You’ll analyse the human wildlife interaction and investigate different ways for their successful co-existence. You will explore important interactions including those associated with agricultural practice, the peri-urban landscape and the role of wildlife in zoonotic disease. You will also gain skills in wildlife survey and trapping, identification and animal handling with the opportunity for industry placements in zoos, sanctuaries, wildlife parks, government agencies and welfare organisations.

Career opportunities
Graduates are employed in research, management and education in agriculture and tourism; managing animal welfare and research programs; in government departments researching and managing feral animals; in conservation, land management and ecotourism, environmental consultancies, vertebrate pest and game management, in wildlife sanctuaries and zoos.

Program features
- You will be taught and work with UQ’s wildlife biologists, who are involved in the conservation and management of non-captive and captive wildlife, as well as exotic animals in Australia and overseas.
- You will be involved in a privately funded, landscape-scale conservation program and participate in routine management and research on both captive and free living wildlife (see hiddenvalewildlife.uq.edu.au).

You will also gain experience in UQ’s wildlife research facilities and some of the best animal and veterinary facilities in the southern hemisphere.

Career opportunities
UQ is ranked in the top 100 in the world for Architecture/Built Environment

QS World University Rankings by Subject 2023

Our Regional and Town Planning program is accredited by the Planning Institute of Australia.

“My earliest memories of architecture go back to colouring in discarded floor plans as a young child, being the daughter of an architect. Although I had an unusually early introduction to architecture, the Bachelor of Architectural Design has allowed me to understand the way in which architecture has a responsibility to drive a more sustainable future, social change, and provide safe and supportive built environments.”

Sionnan Gresham
Bachelor of Architectural Design graduate
Architectus
Architecture, Design and Urban Planning

As our cities and towns become denser, we need living and working spaces that enhance our quality of life. Architects, planners and designers will shape our future cities and living spaces to create vibrant communities.

Our creative and globally focused courses help you develop the design and planning skills you’ll need to create a strong foundation for your career. You’ll have access to the latest technologies, innovative processes and a wealth of architectural, design, and planning resources and experience.

Careers

Choose this field if you like these subjects:

- Design
- Digital studies
- Geography
- Graphics
- Mathematics
- Physics

Our undergraduate programs can lead to careers in:

- Architecture
- Business entrepreneurship
- Commercial and industrial development
- Design
- Environmental management and monitoring
- Heritage and conservation
- Infrastructure planning
- Land-use planning
- Planning law and practice
- Policy and innovation
- Product development
- Regional development
- Resource management
- Social planning
- Spatial planning
- Tourism and transport
- Town planning
- Urban design
- UX design

Facilities

Include architecture, design and planning studios; makerspaces; campus and CBD study and exhibition spaces; a visualisation lab; and computer labs.
Bachelor of Architectural Design

Program overview
As an architect, you will imagine and design spaces that are beautiful and functional, inside and out. The Bachelor of Architectural Design – the first step to becoming a professional, registered architect – provides you with the knowledge and technical skills to complement your creativity, preparing you to shape our local, regional, national, and global communities.

You will learn to unpack the design process and apply it across many disciplines including urban farming, chronic illnesses, or social enterprises. The studio-based projects are practical, where you will work in teams to collaborate, challenge assumptions, prototype innovative and sustainable solutions, and systematically solve problems in creative and novel ways.

Program features
- Access dedicated studio facilities 24 hours a day, 7 days a week, as well as state-of-the-art library, model making, construction and technical laboratory facilities.
- Well-resourced teaching spaces ensure you are learning the latest technologies used in the design and communication of architecture.
- Learn by making – we emphasise the importance of practical skills so that you can realise your most imaginative ideas through models, sculptures and structures.
- Benefit from a strong student and academic community as well as engagement and empowerment from practising architects.
- With a unique focus on Indigenous architecture across the globe, you will investigate solutions to social problems and ways architectural design can effect social change.

Career opportunities
Graduates are employed with architects and in allied design professions, government departments, statutory bodies, local authorities, commercial development companies or research organisations. Overwhelmingly, Bachelor of Architectural Design graduates progress to the Master of Architecture program, which provides the necessary postgraduate skills, experience and qualifications to register as a professional architect.

Pathway to
Master of Architecture

More information
Visit study.uq.edu.au or scan the QR code.

Bachelor of Design

Program overview
Discover how you can design creative solutions for people and a better world. This program will give you contemporary and creative skills to explore career opportunities in any industry. From communication or industrial design to spatial and human-centred design, you will develop expertise in the area that interests you most. You will learn the core principles of design across 6 design studio courses where you will unpack the design process and apply it across many disciplines including urban farming, chronic illnesses, or social enterprises. The studio-based projects are practical, where you will work in teams to collaborate, challenge assumptions, prototype innovative and sustainable solutions, and systematically solve problems in creative and novel ways.

Program features
- This program is specifically designed for those interested in creativity and the role design plays in shaping communities, organisations and businesses.
- Learn the core principles of design across 6 hands-on design studio-based projects.

Career opportunities
As a designer, you’ll possess the expertise and creativity to respond to the complex needs of a contemporary world. Depending on which major you choose, you could pursue a career as a business entrepreneur, user-experience designer, design manager, change manager, content designer, customer experience designer or communication strategist.

More information
Visit study.uq.edu.au or scan the QR code.

Bachelor of Regional and Town Planning

Program overview
Urban and regional planners are essential to managing larger and more urbanised populations. Urban planners help create vibrant communities and improve the quality of life for people in cities and regions by shaping the physical settings they interact with. In this program, you will learn how to plan cities and communities in their entirety, from land use, transport, infrastructure and urban design, through to real estate markets, investment, sustainability, regulatory frameworks and community consultation.

UQ graduates are valued by employers for their extensive knowledge and skills to make environmentally, socially and economically sustainable decisions. Become a leader in this growing field to help shape the future of our local, regional, national, and global communities.

Program features
- You will undertake a planning project each year, where you will work with industry, government and community partners on real-life projects.
- Choose to internationalise your studies by enrolling in field studies courses in Indonesia and Hong Kong, which focus on the development of cities and urban areas.
- Accredited by the Planning Institute of Australia.

Career opportunities
Graduates are employed in areas such as urban design, statutory planning, strategic planning, regional development, environmental management and monitoring, technology for planning, spatial planning, commercial and industrial development, engineering and architectural firms, heritage and conservation, land-use planning, planning law and practice, resource management, social planning, tourism, and transport and infrastructure planning.

More information
Visit study.uq.edu.au or scan the QR code.
The University of Queensland’s cutting-edge Visualisation Laboratory is now operational, enabling students and academics to investigate complex architectural, engineering and urban design problems through an immersive experience of digital twins. A ‘digital twin’ is a virtual model of something that exists in the physical world, achieved using virtual reality and augmented reality technologies.

“In my role as senior planner in Development Assessment at Economic Development Queensland, I identify any potential issues and opportunities of development proposals, to help facilitate high-quality development outcomes. The Bachelor of Regional and Town Planning program is structured to provide a multidisciplinary degree that provides an overview of a range of professions and disciplines including architectural, environmental, urban design, law, geography and property economics.”

Penny Milton
Bachelor of Regional and Town Planning graduate
Senior Planner at Economic Development Queensland

The demand for planning is high with 2,500 jobs predicted between 2021 and 2026.
Sociology

“I am currently managing historic lighthouses with the Australian Maritime Safety Authority as Heritage Coordinator. These significant towers are still operated as critical aids to navigation for mariners at sea. My BA provided me with necessary skills in cultural heritage management, historical inquiry and the passion to protect heritage structures.”

Sarah-Jane Lakshman
Bachelor of Arts (History, Archaeology) graduate
Heritage Coordinator, Australian Maritime Safety Authority.
Arts, Communication, Humanities and Social Sciences

Many changes have reshaped the nature of work. New careers and ways of working are developing as technology is modernised and the rate of globalisation continues to increase.

In 2030, skills such as problem-solving, critical thinking and communication will be of prime importance to potential employers. Careers often go in surprising and unpredictable directions, so take the opportunity to explore your ideas and turn today’s passion into tomorrow’s profession.

Bachelor of Advanced Humanities (Honours)

**Program**
Advanced Humanities (Honours)
Western Civilisation (Honours)*

**Program overview**
This is a stimulating and challenging program for high-achieving students with a keen interest in the humanities. You will engage with leading humanities researchers from your first year of study and have plenty of opportunities to gain industry experience including projects, placements and Work Integrated Learning. There is a deliberate cohort focus to the program, providing social teamwork skills that will be useful no matter what career you end up in.

**Areas of study**
- Ancient History
- Art History
- Drama
- English Literature
- History
- Music
- Philosophy
- Studies in Religion
- Western Civilisation*

**Program features**
* To be confirmed.

**Career opportunities**
Your research training and critical thinking will give you an edge in rapidly changing work environments, where logical reasoning, creative thinking and communication skills are essential.

**More information**
Visit study.uq.edu.au or scan the QR code.

---

Bachelor of Arts

**Program overview**
The Bachelor of Arts provides you with creative and critical thinking skills that help you build a portfolio of skills and capabilities that can be transferred across industries. With one of the most comprehensive course offerings in Australia, you have the opportunity to explore the subjects you love across arts, humanities, social sciences and languages by choosing from more than 45 study areas across the humanities, social sciences and languages. You'll have access to a range of internships, work experience opportunities and fieldwork tailored to your career aspirations. These will allow you to develop professional skills, build a powerful network, and thrive in the ever-changing workplace.

**Areas of study**
- Aboriginal and Torres Strait Islander Studies
- Ancient Greek
- Ancient History
- Ancient History/Religion
- Anthropology
- Archaeology
- Art History
- Australian Studies
- Chinese
- Chinese Translation and Interpreting
- Classics
- Criminology
- Drama
- Economics
- English
- English as an International Language
- English Literature
- Film and Television Studies
- French
- French Advanced
- Gender Studies
- Geography
- German
- History
- Indonesian
- International Relations

- Peace and Conflict Studies
- Philosophy
- Political Science
- Popular Music and Technology
- Professional Writing and Communication
- Psychology
- Russian
- Sociology
- Spanish
- Sport Studies
- Studies in Religion
- Writing

**Career opportunities**
A degree in Arts will prepare you for not just one job, but many. The skills you will gain in leadership, creativity, problem-solving, empathy and communication are increasingly relevant to Australia's current and future workforce. Your specialist knowledge and skills will be prized by all industry sectors, making you agile, adaptable and highly employable.

**More information**
Visit study.uq.edu.au or scan the QR code.

---

Bachelor of Communication

**Program overview**
The Bachelor of Communication has been designed to respond to employer demand across the media and communication industries. The program will prepare you for a lifetime of creative and critical use of media and communication in industries, government and communities. You will gain a strong foundation in writing, industry engagement – including internships, practice and production skills – and critical thinking. You will develop expertise in multimedia and online content production, social media engagement and analytics, community and stakeholder engagement, and campaign development.

**Areas of study**
- Digital Media
- Public Relations

**Career opportunities**
Communication jobs are varied, and there are plenty of careers for good communicators out there, especially with the digitisation of the industry constantly evolving.

**More information**
Visit study.uq.edu.au or scan the QR code.

---

Bachelor of Criminology and Criminal Justice

**Program overview**
This program focuses on professional practice and criminal law, providing you with high-level, industry-relevant skills to compete favourably in the growing international justice and criminology employment markets. As a criminologist, you will understand how the justice system works, and why people commit crimes, and have the skills and knowledge to contribute towards preventing and controlling crime and social problems that face contemporary society.

**Career opportunities**
You will be well positioned for a career at all levels of government, local companies and global corporations, and a range of non-government treatment and social service agencies.

**Program overview**
Become a social change maker and gain the skills to address the major social challenges of our time. Set yourself up for a careers that address pressing social issues – such as poverty and inequality, social justice, health and illness, and the social impacts of climate change – at local, national and international levels. You’ll learn to think critically and beyond borders, drawing from sociology and policy studies through to geography, critical Indigenous studies, political science, international relations and anthropology. This program will give you a strong grounding in social justice, social research, and establish new links with community and industry, as well as create a strong foundation in the practice-based skills; values and knowledge needed to address key social problems.

**Areas of study**
- Development • Environment and Society • Health and Social Policy

**Program features**
- Undertake a supervised, year-long research project and equip yourself with valuable workforce skills

**Career opportunities**
You will be equipped with relevant skills including policymaking and advocacy, public communication, cross-cultural awareness, report writing, project management and social research skills. These skills enable graduates to seek employment with government departments, community service and advocacy agencies, healthcare providers, non-governmental organisations (NGOs), and in the business / private sector.

More information Visit study.uq.edu.au or scan the QR code.
“UQ offers many unique opportunities to create your own community and gain industry experience. I built a supportive network of mentors and friends by participating in a range of extracurricular activities such as volunteering, competitions, clubs and societies. I also benefited from several industry opportunities that developed my interpersonal skills and improved my employability. All these experiences helped me grow and placed me in the optimal position to make an impact in my chosen field.”

Paivi Adeniyi
Bachelor of Economics / Bachelor of Laws (Honours) graduate
Valedictorian
Business, Economics and Law

Business, economics and law have improved living conditions worldwide, but inequalities still exist. Our graduates balance the push towards wealth with values like fairness, equality and justice. Leaders in business, policymaking and law are in demand around the world.

Our vision is to provide a world-class business, economics and law education that opens your mind and your possibilities for the future. We want to inspire you to create change locally and globally. You will be taught by teachers who consult and advise companies worldwide.

As a business, economics and law student, you will have exclusive access to career and employability specialists, and a suite of services to support your career development.

You will also have the chance to experience work-integrated learning courses in your program. Our employability capstone elective provides the opportunity to collaborate with students and an industry partner to solve a real and complex industry problem. These experiences can help you to boost your employability and develop the capabilities you need to succeed in an increasingly connected and competitive world.

**Program overview**

This program aims to develop your analytical and technical skills to help you become a leading economist or financier in investment banking, capital markets, equity or venture capital, or the public sector. You’ll study topics like how policy can affect economic and social outcomes, the effect of the Global Financial Crisis on economic theory and monetary policy, and common financial issues facing most companies. As the program is highly structured, you’ll develop strong networks within your cohort.

At the end of your third year, you’ll choose to major in either economics or finance, or complete a more general pathway by undertaking electives, an individual research topic and a team project.

**Areas of study**

- Economics • Finance

**Program features**

- UQ’s field of accounting and finance is ranked 1st in Queensland and 6th in Australia (QS World University Rankings by Subject 2023).

**Career opportunities**

Potential career pathways include investment banking, funds management, management and financial consulting, economics, international finance and trade, or employment with government agencies such as the Reserve Bank of Australia.

Notes:
- Note: This program is currently being reviewed to prepare the best experience for our incoming students.
**Bachelor of Economics**

**Program overview**
Economics is about more than just markets, trade and prices. It’s the study of people – why (and how) we make decisions and how we can predict human behaviour. In this program, you will study microeconomics, macroeconomics, cost-benefit analysis and electives from more than 40 courses. You will learn a range of statistical, mathematical and analytical tools that can be used to explain why individuals, organisations and governments make the decisions they do.

**Bachelor of Tourism, Hospitality and Event Management**

**Program overview**
This program will develop your managerial skills and business acumen so you can plan, organise and deliver exceptional experiences in tourism, hospitality or events. Develop your core knowledge with compulsory courses in business management, marketing, tourism, hospitality, events and business law. Then, specialise in tourism and event management or hotel and hospitality management and open doors to exciting opportunities in the global tourism industry.

**Areas of study**
- Hotel and Hospitality Management  
- Tourism and Event Management

**Program features**
- UQ’s field of hospitality and leisure management is ranked 2nd in Australia and 27th in the world (QS World University Rankings by Subject 2023).
- UQ is the only university in Australia to be certified with the United Nations World Tourism Organization (UNWTO) TedQual certification, which promotes responsible, sustainable and accessible tourism.

**Career opportunities**
With advanced management training and access to impressive professional networks, you will be well positioned for a promising career. Our graduates are in high demand with employers both locally and internationally in a range of fields such as tourism, festival management, sponsorship and fundraising, and hotel and resort management.

**More information**
Visit study.uq.edu.au or scan the QR code.
“Teachers have such a unique opportunity and responsibility to influence and encourage students to develop into their best selves. Thanks to UQ’s program and supportive staff, I felt unbelievably prepared and exceptionally excited to meet my students and make the learning experience positive for each individual.”

**Matthew Gover**
Bachelor of Science / Bachelor of Education (Secondary) graduate

Matthew is a Science teacher at Canberra Grammar School and was the global winner (education category) in the 2022 Global Undergraduate Awards.
Great teachers encourage curiosity and inspire inquisitive minds. As a teacher, your impact can last a lifetime.

Teaching is a rare profession that allows you to make a difference in the lives of your students. In our initial teacher education programs, we prepare you for the exciting work in primary and secondary classrooms, where you will build on sound theoretical foundations to merge content knowledge with understanding how your students learn. Your creative skills will be enhanced as you combine university studies with practicum experiences in a range of contexts. Our School of Education is globally engaged and locally committed so you will gain an understanding of local and world contexts. Graduates are eligible to apply for registration with the Queensland College of Teachers (QCT) and to teach in state and independent schools in Australia and many countries around the world.

Over 94 per cent of UQ Education graduates are offered full-time employment within 4 months of graduation.

Good Universities Guide 2024
Bachelor of Education (Primary)

Program overview
As a primary school teacher, you will encourage children’s curiosity and inspire their inquisitive minds. This 4-year program will provide you with the high-level academic knowledge and professional skills necessary to foster children’s learning and development from Prep (the first year of school) through to Year 6. You will cover all aspects of the Australian Curriculum, while developing vital knowledge about teaching and learning, child development, diversity and inclusion, and Indigenous knowledge about teaching and learning, child development, diversity and inclusion, and Indigenous education. You will complete placements and a final-year internship to demonstrate your competence.

Program features
- UQ’s field of education and training is ranked 40th in the world (QS World University Rankings by Subject 2023).
- You will be ready to enter the classroom after a minimum of 80 days of supervised professional experience across your program, and will experience a range of schools and variety of primary year levels.

Note: Students who already have an approved undergraduate degree and want to become a teacher can apply for the Master of Teaching (Primary) and qualify as a teacher after 2 years of full-time study.

Career opportunities
Graduates are eligible to apply for registration with the Queensland College of Teachers (QCT), as well as other authorities, to teach in schools around Australia, and some worldwide. Once registered, you can work as a primary school teacher in state or independent schools in Queensland, interstate or overseas, or undertake further study to qualify as a principal, curriculum adviser, guidance or career officer, or head of department.

Bachelor of Education (Secondary)

Program overview
High school teachers are instrumental in shaping young adults. In this dual program, you will learn how to guide students’ inquisitive minds, developing high-level academic knowledge and professional skills across teaching and learning, research and leadership, development, diversity, and gaining a broad understanding of the Australian Curriculum, while also specialising in a key area of interest in your second program. Immersive, hands-on workshops, school visits and supervised practicums throughout your program will give you a strong understanding of day-to-day life in a high school. The Bachelor of Education (Secondary) is studied as a dual program. It can be combined with any one of the following programs: Bachelor of Arts, Bachelor of Mathematics, Bachelor of Music (Honours), Bachelor of Science, or Bachelor of Business Management.

Career opportunities
Graduates are eligible to apply for registration as a teacher in Queensland, to work as a secondary school teacher in state and independent schools in Australia and worldwide. With further study and experience, this can lead to roles as a head of department, principal, guidance officer, learning support teacher, or student adviser. If you choose to undertake a specialisation in music or a Language Other Than English (LOTE), there is also the opportunity to work in primary school education.

Note: Students who already have an approved undergraduate degree and want to become a teacher can apply for the Master of Teaching (Secondary) and qualify as a teacher after 2 years of full-time study. You might also be interested in the Bachelor of Health, Sport and Physical Education – visit page 69 to find out more.

Program features
- UQ’s field of education and training is ranked 40th in the world (QS World University Rankings by Subject 2023).
- In every year of your program, you will experience time in schools that will enable you to connect theory to practice. By the end of the program you will be confident and job-ready after completing a minimum of 85 days of supervised professional experience across your 2 teaching areas.

Career opportunities
Graduates are eligible to apply for registration as a teacher in Queensland, to work as a secondary school teacher in state and independent schools in Australia and worldwide. With further study and experience, this can lead to roles as a head of department, principal, guidance officer, learning support teacher, or student adviser. If you choose to undertake a specialisation in music or a Language Other Than English (LOTE), there is also the opportunity to work in primary school education.

“For me, having the opportunity to support children to achieve their personal best and inspire their love for learning is what drives me towards being my best every day. UQ stood out for me because of the placement opportunities that were offered throughout the degree. That was such an advantageous part of the program and really assisted me when entering the workforce. Having the ability to learn in theory and transfer that into practice was so beneficial. There is something very special about fostering lifelong learning in our young people of today, and to be part of that is such an exciting experience.”

Kara Ilich
Bachelor of Education (Primary) graduate
Teacher and Dean of Curriculum & Pedagogy (Years 4–6) at Whitsunday Anglican School
“A lot of really good technical learning happens here at UQ with our wonderful lecturers and tutors. That’s really unparalleled when you walk into industry. It’s really great to feel like you’ve got that behind you.”

Tierney George
Bachelor of Engineering (Honours) (Civil Engineering) / Bachelor of Business Management graduate
Engineering, Computer Science and IT

The world needs engineering solutions and computer systems to enhance the efficiency of our organisations, companies and lives.

At UQ, we believe in thinking differently, asking the hard questions and being a positive disruptive influence. You will be taught by a mix of internationally renowned lecturers, industry professionals and leading researchers. Our learning spaces are some of the most innovative in the world, and our programs will provide you with the skills and expertise to address the world’s most challenging problems.

Careers

Choose this field if you like these subjects:

- Aerospace systems
- Biology
- Business
- Computer science
- Chemistry
- Design
- Digital studies
- Earth and environmental science
- Geography
- Graphics
- Information technology
- Mathematics
- Physics
- Technology studies

Our undergraduate programs can lead to careers in:

- Aerospace engineering
- Augmented reality design
- Biological engineering
- Biomedical engineering
- Chemical engineering
- Civil engineering
- Computer engineering
- Design
- Electrical engineering
- Enterprise information systems
- Environmental engineering
- Game design
- Geotechnical engineering
- Human-computer interaction
- Information management
- Information technology
- Materials engineering
- Mechanical engineering
- Mechatronic engineering
- Metallurgical engineering
- Mining engineering
- Programming
- Project management
- Software design
- Software engineering
- Software information systems
- User experience design
- Virtual reality design
Bachelor of Computer Science

Do you want to shape our digital future? Tailor your studies to suit your career aspirations and learn how to create systems that automatically transform data into information. Learn the theory behind algorithms and data structures as you gain the knowledge and skills to thrive in any sector that uses technology.

Areas of study
• Cyber Security • Data Science • Machine Learning
• Programming Languages • Scientific Computing

Program overview
The Bachelor of Computer Science has been designed to place you at forefront of engineering in 2025, 2035 and beyond. Our flexible first year will provide you with hands-on learning in all aspects of computing. You have the option to complement your engineering specialisation with a major or minor in one of the emerging areas of engineering and information technology. In your chosen engineering career.

Specialisations
• Chemical Engineering • Civil Engineering • Electrical Engineering • Mechanical Engineering • Mechatronic Engineering • Software Engineering

Majors
• Aerospace Engineering • Biomedical Engineering • Bioprocess Engineering • Computer Engineering • Environmental Engineering • Geotechnical Engineering • Materials Engineering • Metallurgical Engineering • Mining Engineering • Structural Engineering • Transport Engineering • Water and Marine Engineering

Minors
• Computing • Data Science • Design

Program features
• Complete a multi-discipline design, build and test project in your first semester and discover the engineering specialisation that fits your ambition.
• You can complete your compulsory 450 hours of placement (unpaid work experience) in a relevant industry or within a sector that interests you.
• Access UQ’s state-of-the-art facilities, which include our cutting-edge Visualisation Lab, Industry 4.0 TestLab, Cyber War rooms, and 14 specialist computer labs for engineering, architecture and IT students.
• The Bachelor of Computer Science and Information Systems was ranked as the #1 Computer Science and Information Systems program globally (QS World University Rankings by Subject 2023).
• You can complete your compulsory 450 hours of work experience (unpaid work experience) in a relevant industry or within a sector that interests you.
• Access UQ’s state-of-the-art facilities, which include our cutting-edge Visualisation Lab, Industry 4.0 TestLab, Cyber War rooms, and 14 specialist computer labs for engineering, architecture and IT students.

Career opportunities
As technology continues to evolve, the growing demand in this area provides opportunities in the operation and support of services in finance, energy, transport, health, communications and many more.

More information
Visit study.uq.edu.au or scan the QR code.

“For me it was not clear cut as to what I wanted to do at university after high school. I knew I was creative, and having dabbled in software like Photoshop, I showed a light interest in design. So, when I saw a degree that offered web and graphic design subjects, I decided to take a leap and undertake a degree in Information Technology.

I feel that I am lucky that I selected a degree based on my interest in design as it turned out to be a degree I truly loved with endless opportunities and career paths.”

Madeleine Kingsley
Bachelor of Information Technology graduate
Senior UX Designer (User Interface/User Experience), Virgin Australia

Bachelor of Engineering (Honours)

Program overview
The Bachelor of Engineering (Honours) has been designed to place you at forefront of engineering in 2025, 2035 and beyond. Our flexible first year will provide you with hands-on learning in all aspects of engineering. You have the option to complement your engineering specialisation with a major or minor in one of the emerging areas of engineering and information technology. In your chosen engineering career.

Specialisations
• Chemical Engineering • Civil Engineering • Electrical Engineering • Mechanical Engineering • Mechatronic Engineering • Software Engineering

Majors
• Aerospace Engineering • Biomedical Engineering • Bioprocess Engineering • Computer Engineering • Environmental Engineering • Geotechnical Engineering • Materials Engineering • Metallurgical Engineering • Mining Engineering • Structural Engineering • Transport Engineering • Water and Marine Engineering

Minors
• Computing • Data Science • Design

Program features

“...
Bachelor of Engineering (Honours) / Master of Engineering

Program overview
Do you want to be a respected engineering leader who excels in your field? As a UQ Bachelor of Engineering (Honours) / Master of Engineering student, you will be challenged to push the boundaries of the discipline while you develop high-level skills in critical and analytical thinking, research design, writing, and project management. As part of the program, you will submit a master’s-level thesis and complete a semester-long placement, either in industry or in research. This placement within a 5-year program with master’s-level coursework is an Australian first.

Fields of study
- Chemical Engineering • Chemical and Biomedical Engineering • Chemical and Bioprocess Engineering • Chemical and Environmental Engineering
- Electrical Engineering • Electrical and Biomedical Engineering • Electrical and Computer Engineering
- Mechanical Engineering • Mechanical and Aerospace Engineering • Mechanical and Materials Engineering
- Mechanical Engineering • Software Engineering
- Civil and Environmental Engineering
- Civil and Metallurgical Engineering • Civil and Environmental Engineering
- Chemical and Environmental Engineering
- Chemical and Biomedical Engineering
- Chemical and Bioprocess Engineering
- Chemical and Environmental Engineering
- Chemical and Biomedical Engineering
- Chemical and Bioprocess Engineering
- Chemical and Environmental Engineering

Program features
- Complete a multi-discipline design, build and test project in your first semester and discover the engineering specialisation that fits your ambition.
- Undertake a semester-long placement within industry or a research institute. Our Employability Team work with you to secure the placement and provide support throughout the semester.
- Chemical and Metallurgical Engineering • Civil Engineering • Civil and Environmental Engineering
- Electrical Engineering • Electrical and Biomedical Engineering • Electrical and Computer Engineering
- Mechanical Engineering • Mechanical and Aerospace Engineering • Mechanical and Materials Engineering
- Mechanical Engineering • Software Engineering
- Chemical and Environmental Engineering
- Chemical and Biomedical Engineering
- Chemical and Bioprocess Engineering
- Chemical and Environmental Engineering
- Chemical and Biomedical Engineering
- Chemical and Bioprocess Engineering
- Chemical and Environmental Engineering
- Chemical and Biomedical Engineering
- Chemical and Bioprocess Engineering
- Chemical and Environmental Engineering
- Chemical and Biomedical Engineering
- Chemical and Bioprocess Engineering
- Chemical and Environmental Engineering

Career opportunities
Graduates are often employed as leaders on issues like climate change, sustainable energy, mineral resources, and reducing poverty and disease. 76% of students are offered ongoing employment opportunities with their placement provider.

More information
Visit study.uq.edu.au or scan the QR code.

Bachelor of Information Technology

Program overview
Gain the specialised skills and knowledge to succeed in the rapidly changing business and technology world. Set yourself up for any number of career options working with computers and information, and apply your technical skills to solve problems, support innovation and improve communication between people. Topics covered in this program include accounting, economics, law, marketing, business and strategy. You’ll also learn about software engineering, design, mathematics and information systems. Benefit from a program developed through strong industry consultation that allows you to undertake projects, placements and internships with businesses. You can choose to complete one or 2 majors, or a major plus a minor, with topics relevant to computer hardware, software and user experience.

Majors
- Software Design • Software Information Systems
- User Experience Design

Minors
- Computer Systems

Program features
- UQ’s field of computer science is ranked 76th in the world (U.S. News Best Global Universities Rankings, 2023).
- Gain professional experience during a final-year placement. You’ll work on an industry-based project that builds on the knowledge and skills you’ve acquired during your studies and graduate with a network of industry contacts.
- Access UQ’s state-of-the-art facilities, which include our cutting-edge Visualisation Lab, Industry 4.0 Energy TestLab, Cyber War rooms, and 14 specialist computer labs for engineering, architecture and IT students.

Career opportunities
Graduates typically work as analysts, programmers, designers, developers, administrators, consultants or project managers, working in small teams to complete projects within their organisation, or for external clients.

More information
Visit study.uq.edu.au or scan the QR code.
“Employers want graduates who are able to reason clinically, put patient safety first, and are passionate and able to be leaders in practice. I feel UQ has prepared me very well for that. Initially I wasn’t sure what side of nursing I wanted to do. I just knew I wanted to do nursing. At UQ I realised I want to learn a lot more about nursing and eventually do postgraduate study. I want to do more for my community, and this is just the beginning.”

Leon Mupapira
Bachelor of Nursing graduate
Health, Behavioural Sciences and Medicine

As life expectancy increases, the need for quality healthcare professionals will also rise. The global health sector is seeking alternative models of care, making it an exciting time for a career in health.

At UQ, we’re committed to health in a big way. Our vision is to advance understanding of health issues, build better health services and make you a leader and innovator of the future. A hands-on approach and cutting-edge research are built into our teaching to prepare you for all types of care situations. We maintain close partnerships with major healthcare providers to inform our teaching, research and clinical engagement. Clinical and industry placements will help you to expand your professional network, decide on a specialty and prepare for an exciting career.

Careers

Choose this field if you like these subjects:

- Biology
- Business studies
- Chemistry
- Health and physical education
- Mathematics
- Physics
- Psychology
- Studies of society

Our undergraduate programs can lead to careers in:

- Biomedical science
- Cardiac science
- Dentistry
- Disability support
- Embryology
- Environmental health sciences
- Epidemiology
- Exercise physiology
- Health and physical education
- Health promotion
- Health policy
- Health sciences
- Medicine
- Mental health services
- Midwifery
- Nursing
- Nutrition
- Occupational therapy
- Pharmacy
- Physiotherapy
- Psychology
- Public health management
- Regulatory and medical affairs
- Research
- Social work
- Speech pathology
- Sport and recreation management
- Sports coaching
- Sports science
- Youth and child support services
### Bachelor of Biomedical Science

**Program overview**
Develop your understanding of the breadth and depth of modern biomedical science. Learn from our researchers who are leaders in the development of vaccines, antibiotic treatments and stem cell therapies. You will benefit from their knowledge of the latest biomedical science developments and put this theory into practice through structured research projects in laboratories. You’ll integrate your studies across various discipline areas to graduate with well-grounded knowledge and be equipped for a rewarding career in industry or research organisations.

You can also use this program as a pathway to medicine or allied health programs. Your studies will focus on the human body at the molecular, cellular and whole body levels, and the disciplines of anatomy, biochemistry and cell biology, physiology, developmental biology, microbiology, pharmacology and neuroscience. You will learn the scientific process through experimental design, hands-on experiments and computer modelling.

**Program features**
- **UQ** is ranked 1st in Queensland for life sciences and medicine (QS World University Rankings 2023) and 4th in Australia for biomedical and health sciences (CWTS Leiden Ranking 2023).

**Career opportunities**
This program will help you embark on a biomedical science career, including work in hospital and diagnostic clinical laboratories, biotechnology and pharmaceutical companies; laboratory work in molecular and cellular biology; health policy and communications; and secondary schools or other educational institutions (when combined with a teaching qualification).

### Bachelor of Clinical Exercise Physiology (Honours)

**Program overview**
This program will prepare you for an exciting career as an accredited exercise physiologist and accredited exercise scientist. Accredited exercise physiologists and accredited exercise scientists are recognised allied health professionals who design and deliver exercise interventions for the prevention and management of a range of musculoskeletal, cardiovascular, metabolic, neuroligic, cancer, and mental health conditions.

You will undertake more than 600 hours of practical placements in a variety of clinical settings, including hospitals, healthcare organisations and fitness facilities.

**Career opportunities**
Accredited exercise physiologists and accredited exercise scientists have skills that can be applied to a variety of clinical, exercise and sport science professions. You may work in a variety of settings, including private practices, home health services, hospitals or clinical services, research centres, and community health and fitness centres.

Other careers include biomechanist, cardiac scientist, respiratory technician, strength and conditioning specialist, rehabilitation professional, health promotion officer, corporate health and fitness adviser, health educator, fitness consultant, community recreation officer and exercise science researcher.

### Bachelor of Dental Science (Honours)

**Program overview**
The Bachelor of Dental Science (Honours) educates the next generation of dental professionals in the most advanced oral health facility in Australia. With small cohorts and dedicated, specialist teachers, you will master the science and technical skills required to care for patients and prevent, diagnose and treat oral diseases and abnormalities. You will be workforce-ready when you graduate, with extensive clinical experience and in-depth knowledge of general practice in dentistry, orthodontics, paediatric dentistry, periodontics, endodontics, prosthetics, oral medicine, oral surgery, and public health.

**Program features**
- **UQ** is ranked 3rd in Australia for Dentistry (QS World University Rankings by Subject 2023).
- **You** will study at the $138 million Oral Health Centre in Herston, which has more than 150 dental chairs in 11 clinics.

**Career opportunities**
Once registered with the Dental Board of Australia, you can establish your own private practice; work within an established practice, or join a partnership. Within the public sector, there are opportunities to work within hospitals, community health services, or school-based dental clinics across Australia.

Postgraduate study offers opportunities to develop specific interests in research or qualify as a specialist in a recognised field such as dento-maxillofacial radiology, orthodontics, oral medicine, orthodontics, periodontics, prosthodontics and special-needs dentistry.

**Pre-placement requirements**
Visit habs.uq.edu.au/prepare-your-dentistry-placement

* See inside back cover
Program overview
Do you want to help elite athletes be the best they can be, get your community fit and healthy, or prescribe exercise to prevent injury in healthy people? This program focuses on understanding how to enhance human performance, build stronger athletes, promote healthy ageing, and generally improve people’s health and wellbeing through exercise and physical activity. You’ll learn about the intricacies of human movement, and have the opportunity to study the biology, technology, behaviour and best practices that underpin exercise and sport sciences.

Program features
• UQ’s field of sports-related subjects is ranked 1st in Australia and 2nd in the world (QS World University Rankings by Subject 2023).
• You’ll undertake 500 hours of supervised professional practice providing hands-on experience with real clients in a supervised environment.
• Graduates are eligible for accreditation with Exercise and Sports Science Australia (ESSA) – the leading professional association for exercise and sports science practitioners.

Career opportunities
Graduates can pursue careers as an accredited exercise scientist or accredited sport scientist (ASpS).

You may find yourself prescribing and delivering exercise and physical activity programs in the fitness industry, developing strength and conditioning programs to assist elite athletes and sporting teams, delivering workplace health promotion and executive health management programs, or conducting administration requirements (cardiac, sleep, respiratory or neurophysiology) in hospitals or other clinical services.

Program overview
In this flexible program, you will gain a broad understanding of human health, studying fields including biomedicine, health behaviours, public health and evidence-based practice. You will specialise in clinical health, nutrition or public health, and get hands-on experience during your final semester of study with a minimum of 90 hours of supervised work experience.

Areas of study
• Clinical Health
• Nutrition
• Public Health

Program features
• UQ’s field of sports-related subjects is ranked 1st in Australia and 39th in the world for public health (ShanghaiRanking’s Global Ranking of Academic Subjects, 2020).
• With appropriate study plans, this program covers equivalent Bachelor of Dietetics Studies (provisional entry to Master of Dietetics Studies).

Career opportunities
Graduates pursue rewarding careers as policy, health promotion or public health officers, or in health administration. Others pursue clinical careers through further study.

Program overview
Do you want to make a difference in young lives by inspiring healthy lifestyles through physical activity? This program prepares you to be a teacher in the areas of Biology (including Year 7-10 Science), Health and Physical Education (including Year 7-10 HPE, Year 11-12 Physical Education and Health Education). You’ll learn how to help young people explore a range of sport and physical activities confidently and competently, and develop a lifelong love of being healthy and active. As part of the program, you will complete placements where you will work with young people in primary and secondary schools.

Program features
• UQ’s field of sports-related subjects is ranked 2nd in the world (QS World University Rankings by Subject 2023).
• You will undertake more than 100 days of supervised teaching experience in a range of primary and secondary schools and special needs settings.
• Complete an individual research project in final year, supervised by an academic or researcher from the School of Human Movement and Nutrition Sciences.

Career opportunities
Graduates can pursue a broad range of careers, not only as specialist teachers of senior physical education, senior health, senior biology, and junior health and physical education, but also in related areas such as outdoor education, recreation management, sports coaching or corporate health.

Pre-placement requirements

Bachelor of Human Movement and Nutrition Sciences

Program overview
Explore the science of human movement and nutrition across the lifespan and discover the roles that food, physical activity, exercise and sleep play in our health, the prevention of chronic disease, and sporting performance. Apply your knowledge through an industry placement. With majors in nutrition, sports coaching and sporting cultures, and the option for dual degrees, the Bachelor of Human Movement and Nutrition Sciences provides multiple pathways to a career in health and beyond.

Program features
- UQ’s field of sports-related subjects is ranked 2nd in the world (QS World University Rankings by Subject 2023).
- This program is a preferred pathway for UQ’s Master of Dietetics Studies with the major in nutrition covering the prerequisite courses.
- With the appropriate study plan, you can meet the prerequisite courses prior to entry into UQ’s Doctor of Medicine program and other postgraduate allied health programs.

Career opportunities
Graduates frequently combine a Bachelor of Human Movement and Nutrition Sciences with a postgraduate qualification to specialise in non-clinical or clinical areas such as dietetics, medicine, physiotherapy, audiology and occupational therapy. Other students use their skills to work in graduate-entry roles such as nutrition assistant, health policy analyst, or health and wellbeing consultant.

Bachelor of Midwifery

Program overview
Midwives play a pivotal role in safely guiding expectant women and parents through pregnancy, birth and the weeks that follow. This program will prepare you for this challenging and rewarding career. You will undertake extensive supervised practical experience throughout the program, and during your final year you will extend your clinical knowledge to ensure you meet the Nursing and Midwifery Board of Australia accreditation standards.

Program features
- Link theory and practice through a variety of learning methods, including case studies that reflect what it’s really like to work with women and parents from diverse backgrounds.
- Your clinical placements will commence in your first year, and in your final year you will complete extended clinical placements in a variety of maternity and healthcare settings.

Career opportunities
Midwives find employment in public or private health; maternity and neonatal care; teaching or research; rural and remote health; and aid organisations.

“I loved my time at UQ studying a Bachelor of Health, Sport and Physical Education (Honours). The tight–knit community, in conjunction with world-class sporting and science facilities and over 100 days of placement experience, gave me a personal and quality education. My lecturers all knew me and my peers not just by name, but by our passions and hobbies, making life as a student much easier as the barriers of limited friendships and inability to approach staff were never a concern.”

Jacinta Cross
Bachelor of Health, Sport and Physical Education (Honours) graduate

**Program overview**

If you’re an agile thinker, resourceful, compassionate, and want a career where you make a difference, UQ’s Bachelor of Nursing is the program for you. This internationally respected program integrates inquiry-based learning with clinical placement located in major teaching hospitals. You will undertake extensive supervised practical experience throughout your program to develop your clinical skills and knowledge to deliver contemporary clinical care. During your final year of study, you will be able to undertake clinical placement in a specialised area of nursing, including acute care, aged care, mental health, indigenous health, rural health, public health or community health. This program is delivered through small group-based clinical teaching sessions in simulation centres, and through workshops and lectures at UQ St Lucia.

**Program features**
- UQ’s field of nursing is ranked 30th in the world (ShanghaiRanking’s Global Ranking of Academic Subjects 2023).
- There is a worldwide shortage of trained nurses, and Australian employment prospects are projected to increase by 12.2 per cent during the next 5 years (Jobs and Skills Australia/Victoria University Employment Projections 2023–2028).

**Career opportunities**
Graduates work as registered nurses in various public, private or community healthcare settings; critical care and emergency; mental health; aged care; research; and academic and clinical teaching.

**Program overview**

Occupational therapists help people of all ages overcome problems that affect their ability to engage in the everyday activities that are meaningful and important to them. They use a range of intervention strategies designed to help each person’s participation in valued activities, such as modifying the task or environment, providing education and/or developing their skills. Through this program, you will gain a thorough understanding of the theory and practice of occupational therapy, including foundation knowledge from the anatomical, physiological, social, behavioural and psychological sciences.

**Program features**
- You may have the opportunity to undertake rural, regional and overseas placements.
- UQ has a dedicated occupational therapy clinic and a simulated hospital ward where you will apply your knowledge and develop your skills during your studies.

**Career opportunities**
Graduates work as occupational therapists in public and private hospitals; community health services; rehabilitation units (medical, vocational, psychiatric); regular and special schools; services providing development and training for persons with a social, intellectual or physical disability; independent living centres; workplace health and safety units; aged care facilities; mental health services; centres of tertiary education; research institutions; or private practice.

</tr>
</tbody>
</table>

**Program overview**

The Bachelor of Pharmacy (Honours) prepares you to play a vital role in the healthcare system. As a pharmacist, you can work in community pharmacies, hospital pharmacies, industry, research or a range of other settings. Pharmacists improve people’s lives through education, disease prevention, patient counselling, medication reviews and more. In dedicated laboratories and simulated pharmacies, you will learn about the properties of medicines, how medicines affect the body and the pharmacy profession. Pharmacists develop an extensive understanding of drugs, their side-effects, their interactions, how they work and correct dosages.

With an ageing population, the role of the pharmacist is expanding and their skills are necessary now, and into the future.

**Areas of study**
- Clinical and Experimental Therapeutics

**Program features**
- UQ’s field of pharmacy and pharmacology is ranked 23rd in the world (QS World University Rankings by Subject 2023).
- Learn at a purpose-built $100 million teaching and research facility.

**Career opportunities**
Graduates of UQ’s Pharmacy program enjoy one of the highest graduate employment rates of any occupation in Australia.

This program leads to careers in community and hospital pharmacies as well as industrial pharmacy. Graduates have also gone on to senior positions within both the pharmacy and healthcare industries, as well as government. They have also used pharmacy as a platform for further study in medicine, a career in academia, or a career in research and development.

**Program overview**

Physiotherapists help to get people moving, from office workers to elite athletes, children with disability and elderly with degenerative conditions. As a UQ Bachelor of Physiotherapy (Honours) student, you will earn internationally recognised qualifications and become a skilled healthcare professional who helps people improve their mobility and function, and reduce pain. From your first year, you will build a strong foundation of applied study in medical science, physiotherapy science, anatomy, professional ethics, psychology and therapeutic exercise, to prepare you to care for people with musculoskeletal, neurological, respiratory and other conditions.

**Program features**

- UQ has dedicated physiotherapy clinics and a simulated hospital ward where you will apply your knowledge and develop your skills during your studies.
- You may have the opportunity to undertake rural, regional and overseas placements.
- UQ is a leader in digital health, research and clinical physiotherapy skills curriculum.

**Career opportunities**

Graduates work as physiotherapists in hospitals, community health centres and agencies, rehabilitation units, preschool and school programs and private practice, offering treatments to a full range of patients.

Special note: This program meets undergraduate requirements for professional registration when combined with 2 years study in an accredited postgraduate program in psychology.

Program features

- UQ’s field of psychology is ranked 30th in the world (QS World University Rankings by Subject 2023).

**Career opportunities**

When you graduate, you will be eligible for associate membership of the Australian Psychological Society. With this degree, you will be eligible to apply for accredited postgraduate psychology programs that lead to general registration as a psychologist. You can pursue careers in clinical psychology, clinical neuropsychology, organisational psychology, health psychology, sports and exercise psychology, and counselling psychology.

Broader career options include human resources, mental health services, youth and child support work, relationship counselling, residential care, family and social services, public and private sector management, marketing, advertising and market research, disability support services, aged care, juvenile justice, and corrective services.

**Program overview**

Examine the complexity, intricacy and wonder of the human mind in this program, which is designed for students looking to undertake comprehensive studies in psychology, including the study of developmental, social, cognitive, biological, physiological and abnormal psychology – as well as study in research methods and report writing. Courses examine areas including child development, neuroscience, learning and cognition, social and organisational psychology, psychological assessment, psychological research methods and evaluation of research. With a range of psychology electives to choose from, you will gain a thorough understanding of the fundamentals of psychology while gaining exposure to a variety of specialisations.

**Program features**

- UQ’s field of psychology is ranked 30th in the world (QS World University Rankings by Subject 2023).

**Career opportunities**

You can pursue careers in clinical psychology, clinical neuropsychology, organisational psychology, research or consultancy roles in educational, industrial or other fields of particular interest; or work in research or consultancy roles in educational, industrial or government institutions.

**Program overview**

Do you want to make a positive difference in people’s lives? Are you passionate about the values of dignity and social justice? UQ Social Work (Honours) graduates work with individuals, groups and communities in Australia and internationally to create fairer, more inclusive societies. This program is focused on developing the skills and knowledge you’ll need to make a positive, sustainable difference for people in need. As a UQ graduate social worker, you’ll begin your career with advanced knowledge and skills in fields such as health and ageing, child, youth and families; mental health; and social policy.

**Program features**

- You’ll be taught by internationally recognised experts.
- You will spend 1,000 hours on supervised clinical placement across your program.
- In your final year, you’ll gain hands-on experience in designing and completing your own research project.

**Career opportunities**

Graduates can work as social workers in a variety of government, community and private organisations, including government agencies, child protection, drug and alcohol support clinics, Indigenous health and welfare agencies, residential care and community organisations, private practice, and other organisations.

**Pre-placement requirements**

Program overview
For a rich and rewarding career as a specialist in communication and swallowing difficulties, study UQ’s Bachelor of Speech Pathology (Honours). This program prepares you to help people of all ages with speech, language, fluency and voice disorders, people who have feeding or swallowing difficulties, and people who want to modify their accents or voices. You will learn about anatomy, linguistics, physiology, psychology, swallowing and communication disorders in the areas of voice, fluency, hearing, speech, and language function.

Program features
● You will participate in clinical experiences from your first semester of study.
● UQ has a dedicated speech pathology clinic and simulated hospital ward where you will apply your knowledge and develop your skills during your studies.
● You may have the opportunity to undertake rural, regional and overseas placements.

Career opportunities
Graduates work as speech pathologists in general, paediatric and geriatric hospitals; community health centres; rehabilitation units; aged care facilities; mental health services; preschools, schools, kindergartens and childcare settings; centres for people with specific disabilities such as cerebral palsy, intellectual impairment, autism or hearing impairment; centres of tertiary learning; research institutions; and private practice.

Doctor of Medicine

Program overview
Our vision is to nurture and educate future medical graduates who are clinically capable, team players, kind and compassionate, serve responsibly and are dedicated to the continual improvement of the health of people and communities. Your 4-year medical journey begins in Year 1 with the foundations of medicine – learning fundamental concepts and skills required for medical practice, with a focus on the pathophysiology of common conditions. From Year 3, you will be immersed in various clinical environments – both in hospital and the community. Your learning will be grounded in the clinical ‘workplace’ setting, supported by structured teaching and learning activities before culminating in a dedicated pre-internship placement that will provide you with the opportunity to be an active pre-intern member of a clinical team.

Entry pathways

Doctor of Medicine Provisional Entry
● Greater Brisbane Provisional Entry: Based at a UQ campus for your undergraduate degree and Greater Brisbane for all 4 years of your MD.
● Central Queensland — Wide Bay Regional Medical Pathway: Based at CQUniversity Rockhampton or Bundaberg campus for your undergraduate degree and our Rural Clinical School in the Central Queensland or Wide Bay regions for all 4 years of your MD.

Doctor of Medicine Graduate Entry
● Greater Brisbane Graduate Entry: Based in the Greater Brisbane region for all 4 years of your MD.
● Central Queensland — Wide Bay Regional Medical Pathway: Based at our Rural Clinical School in the Central Queensland or Wide Bay regions for all 4 years of your MD.

Doctor of Medicine Dual Entry
● Greater Brisbane Graduate Entry: Based in the Greater Brisbane region for all 4 years of your MD.
● Central Queensland — Wide Bay Regional Medical Pathway: Based at our Rural Clinical School in the Central Queensland or Wide Bay regions for all 4 years of your MD.

Doctor of Medicine Rural Clinical Pathway
● Greater Brisbane Graduate Entry: Based in the Greater Brisbane region for all 4 years of your MD.
● Central Queensland — Wide Bay Regional Medical Pathway: Based at our Rural Clinical School in the Central Queensland or Wide Bay regions for all 4 years of your MD.

Program features
● UQ’s field of life sciences and medicine is ranked 3rd in Australia and 32nd in the world (QS World University Rankings by Subject 2023).

Career opportunities
Graduates are ready to work as registered doctors and undertake further training in any specialty of clinical practice. For example, general practice, internal medicine and critical care, across the geographic continuum from urban to remote communities.

Pre-placement requirements

“UQ’s international ranking and reputation for world-acclaimed researchers in life sciences, along with excellent campus facilities, placed UQ at the top of my preference list. The variety of business subjects that were blended in with science courses gave me exposure to a range of academic disciplines. Additionally, the research I completed as part of my Honours year allowed me to gain a better understanding of the broad field of Biotechnology and the potential gaps arising in this area.

Biotechnology is an amazing field to be a part of because the opportunities for new technologies and development are almost unlimited. My current role is to support the expansion of high-growth health and advanced technology exporters through the provision of market intelligence, market entry and strategic advice, to ensure achievement of commercial outcomes that contribute towards the nation’s economic prosperity.”

Ann Damien
Bachelor of Biotechnology (Honours)
(Molecular Science and Innovation Management) graduate
Global Engagement Manager, High Growth Export Services, Australian Trade and Investment Commission
Science and Mathematics

The world needs more scientists and mathematicians to solve problems in finance, the environment, science, food and quantum physics.

UQ has one of the largest science faculties in Australia with some of the world's leading scientists, teachers, science programs and commercial outcomes. As a student, you will interact with research teams, use our world-class laboratories and contribute to our international research. You will network with industry partners and work for organisations and companies during professional placements or internships. This hands-on approach is why our graduates enjoy high employability rates and attractive starting salaries.

Bachelor of Advanced Science (Honours)

Program overview
The Bachelor of Advanced Science (Honours) is a 4-year specialised program that will prepare you for a high-achieving career in scientific research and beyond. You’ll learn from world-leading scientists and you’ll generate new knowledge by participating in UQ’s pioneering research to earn a globally recognised qualification. Choose a core specialisation from 12 cross science and mathematics. You can also complement your specialisation with an additional major or minor(s) across a wide range of study areas in science, mathematics, or even a minor in languages, communication, design and beyond. Build your problem-solving capabilities and develop your teamwork, critical thinking, analytical and communication skills through authentic research experiences. Access a network of like-minded students who share your passion for science and immerse yourself in UQ’s internationally connected research community.

Majors
- Applied Mathematics • Archaeological Science
- Biochemistry and Molecular Biology • Bioinformatics
- Biomedical Science • Cell Biology • Chemistry
- Coastal and Ocean Science • Computer Science
- Earth Science • Ecology and Conservation Biology
- Food Science and Nutrition • Food Technology
- Genetics • Geographical Science • Marine Biology
- Mathematics • Mathematics and Physics • Plant Science
- Physical Health • Statistics • Zoology

Minors
- Astrophysics • Biophysics • Chemical Biology
- Computational Science • Data Science
- Developmental Biology • Entomology
- Geographical Information Science • Human Anatomy
- Human Physiology • Immunology • Neuroscience
- Pharmacology • Psychology • Science Communication

Program features
- Complement your specialisation with a choice of 23 majors and more than 30 minors.
- Your final year will be dedicated to an independent research project in your chosen specialisation.
- The flexible program structure allows for many study options to increase your career opportunities.

Career opportunities
Graduates are employed in a wide range of areas, including research organisations and institutes, private and public sector organisations; not-for-profit and charity organisations; universities; hospitals and healthcare; environmental sustainability and planning; advisory positions for product development; defence; marine and wildlife conservation; operations research; and finance.

More information
Visit study.uq.edu.au or scan the QR code.

Bachelor of Biotechnology

Program overview
Set yourself up for a career in research or industry with the skills to translate innovative scientific ideas into world changing solutions. Biotechnology leads to new medical breakthroughs, transgenic animals and plants, stem cell therapies, and a range of sustainable biological solutions. Apply your scientific theory and lab-based practical knowledge to drug discovery, antibody engineering, and vaccine design with Medical Biotechnology. Increase yields, disease resistance, and nutritional content in plants and animals through Agricultural Biotechnology. Construct new microbial technologies with Molecular and Microbial Biotechnology. Design novel metabolic pathways with Synthetic and Industrial Biotechnology. Build your understanding of intellectual property legislation to protect your ideas. Learn to navigate regulatory compliance and quality assurance protocols to ensure your products and technologies are safe and reproducible.

Assess the market potential and financial viability of new ideas to make smart choices before investment.

Areas of study
- Agricultural Biotechnology • Chemical and Nano Biotechnology • Medical Biotechnology • Molecular and Microbial Biotechnology • Synthetic Biology and Industrial Biotechnology

Minors
- Bioinformatics • Innovation and Entrepreneurship • Science Communication

Program features
- UQ is ranked 1st in Australia and 10th in the world for biotechnology (QS World University Rankings by Subject 2023).
- Complete an optional 8-12 week summer internship with academic or industry partners.
- Undertake a one-year honours project in globally renowned research labs or enter a postgraduate Masters degree (1.5 years).

Career opportunities
Graduates with biotechnology qualifications are versatile and highly employable. You will find employment in a variety of sectors with innovation with venture capitalists; research translation in medical fields; regulatory affairs and quality assurance in government or private companies; clinical trial management in pharmaceutical companies; consulting on product development across a range of industries. Roles titles can include drug discovery and translation scientist; biotechnologists; clinical research associates; regulatory and quality assurance; biomanufacture biotechnologist; new product development/innovation leader; chemist or nanotechnologist; industrial/ biomanufacture biotechnologist.

More information
Visit study.uq.edu.au or scan the QR code.

Bachelor of Mathematics

Program overview
Mathematics is the language we use to describe everything around us quantitatively. Use this program in advanced mathematics and its applications to gain quantitative and analytical skills to pursue a high-achieving career in mathematics and statistics, or one of the many fields where it plays an essential role, such as the natural and social sciences, cyber security, engineering, economics and finance, as well as artificial intelligence and data analysis. After securing a foundation of calculus, linear algebra, discrete mathematics, mathematical analysis, modelling and programming, you will specialise in an area of your choice.

Areas of study
- Applied Mathematics • Data Analytics and Operations Research • Mathematical Physics
- Pure Mathematics • Statistics

Minors
- Bioinformatics • Computational Science • Computer Science • Physics • Science Communication • Statistics

Program features
- You may undertake a summer research project or internship through the School of Mathematics and Physics. Undergraduate research scholarships are available through UQ and some industry groups.
- UQ’s field of mathematics is ranked 1st in Queensland (QS World University Rankings by Subject 2023).

Career opportunities
Demand for quantitatively trained graduates is at an all-time high and they are sought by industry sectors including finance, economics, meteorology, information technology, data science and teaching, government agencies and research organisations.

Bachelor of Science

Program overview
Personalise your science adventure with this flexible program that lets you mix and match from many areas of study while developing your critical and creative thinking, technical and professional skills, and varied forms of communication. Your first year in the program develops foundational skills for science (including data analysis, computing, and philosophy), complemented with core content in your area of scientific interest. Your second and third years of the program is when you start specialising in at least one major area of study.

Majors
- Applied Mathematics
- Archaeological Science
- Biochemistry and Molecular Biology
- Bioinformatics
- Biomedical Science
- Cell Biology
- Chemistry
- Coastal and Ocean Science
- Computer Science
- Earth Science
- Ecology and Conservation Biology
- Food Science and Nutrition
- Food Technology
- Genetics
- Geographical Science
- Marine Biology
- Mathematics
- Microbiology
- Microbiology, Infection and Immunity
- Physics
- Plant Science
- Psychology
- Public Health
- Statistics
- Zoology

Extended majors may be available.

- Neuroscience
- Pharmacology
- Physics
- Plant Science
- Psychology
- Science Communication
- Statistics
- Zoology
You can also select minors from the UQ Minors list.

Program features
- Participate in addressing global challenges that science can solve through authentic assessment, fieldwork in natural and modified landscapes, research projects, internships or international study options.
- Choose from Queensland’s largest range of science specialisations.
- Gain access to UQ’s excellent scientific infrastructure: more than 2,200 laboratories including wet, dry and clinical labs, PC2 and PC3 labs, and a range of animal diagnostic, operating and skills training labs.
- Our science academics have won some of Australia’s highest scientific accolades, including 3 Eureka prizes, 2 Fenner Medals from the Australian Academy of Science and over 20 Fellowships of the Australian Academy of Science.
- The Bachelor of Science is popular both as a pathway to medicine, or to improve your entry rank for other programs including engineering, veterinary science, pharmacy or other allied health programs.

Career opportunities
Graduates work in research organisations, government agencies, hospitals and health, industry, environmental and wildlife conservation authorities, universities, and secondary schools (with further study).

More information
Visit study.uq.edu.au or scan the QR code.

“My UQ degree gave me a mathematical foundation for meteorology, which has been really invaluable in my role as a weather forecaster for the Bureau of Meteorology. There are some seriously big partial differential equations in atmospheric dynamics and my main responsibilities are issuing 7-day forecasts for the public, and routine short-term and specialised forecasts for the aviation industry. What I found most beneficial about my program was the staff and student interactions. It was really easy to make friends with older students and lecturers so it was always easy to get help and advice for those willing to learn.”

Matthew Marshall
Bachelor of Science (Honours) graduate
Meteorologist, Bureau of Meteorology

</table>

* Students may take the program on a part-time basis, but the final year must be commenced in Semester 1 and must be taken on a full-time basis.

** Selection based on audition, interview and academic results.

"Minimum (adjusted) selection threshold 2024 is the minimum score that was considered for an offer of a place to all applicants.

> Lowest ATAR to receive an offer refers to all recent secondary students who were offered a place for Semester 1, 2024.

---

** Note: "Science" and "Arts" programs may be combined with other programs to create a DUAL DEGREE program. Please consult the UQ Guide 2025 for more information. **

</table>
Part-time study load is less than 75 per cent of the standard study load (i.e. less than 6 units per semester for most programs). The standard study load is 8 units per semester. Full-time study is 75 per cent or more of the standard study load (i.e. 6 units per semester for most programs).

The time normally taken to complete a program, according to the mode in which it is undertaken.

Science and Mathematics

**Majors:** Applied Mathematics; Archaeological Science; Biochemistry and Molecular Biology; Biometrics; Biomedical Science; Cell Biology; Chemistry; Coastal and Ocean Science; Computer Science; Earth Science; Ecology and Conservation Biology; Food Science and Nutrition; Food Technology; Genetics; Geographical Science; Marine Biology; Mathematics; Microbiology; Microbiology, Infection and Immunity (Extended Major); Physics; Plant Science; Psychology; Public Health; Statistics; Zoology.

**Minors:** Applied Mathematics; Archaeological Science; Atmospheric Science; Biochemistry and Molecular Biology; Biometrics; Biomedical Science; Cell Biology; Chemistry; Coastal and Ocean Science; Computer Science; Data Science; Developmental Biology; Earth Science; Ecology and Conservation Biology; Entomology; Genetics; Geographical Information Science; Human Anatomy; Human Physiology; Immunology; Marine Biology; Mathematics; Microbiology; Neurosciences; Pharmacology; Physics; Plant Science; Psychology; Science Communication; Statistics; Zoology.

**Course Offerings**

The University has many programs and courses, and refreshes and updates its programs and course offerings from time to time and without notice. It is your responsibility to consult the University’s official program and course offerings.

The Australian Tertiary Admission Rank (ATAR) is the standard measure of overall performance that a student’s position overall relative to other students. The ATAR is expressed on a 2,000-point scale from 99.95 (highest) down to 30.00, in increments of 0.05.

**Program Table Explained**

**Minimum Selection Threshold 2024**

**ATAR / IBAS**

The minimum (adjusted) selection threshold is the minimum score that was considered for an offer of a place to all applicants.

**ATAR**

The Australian Tertiary Admission Rank (ATAR) is the standard measure of overall school achievement used in all Australian states and territories. It is a rank indicating a student’s position overall relative to other students. The ATAR is expressed on a 2,000-point scale from 99.95 (highest) down to 30.00, in increments of 0.05.

From 2021, the ATAR replaced the Overall Position (OP) as the standard pathway to tertiary study for Queensland Year 12s.

**IBAS**

International Baccalaureate Admission Score.

**Prequisites**

Specific subjects (or their equivalents) you are required to have completed at school.

**Duration**

The time normally taken to complete a program, according to the mode in which it is undertaken. F = full-time; P = part-time.

**Full-time**

The standard study load is 8 units per semester. Full-time study is 75 per cent or more of the standard study load (i.e. 6 units per semester for most programs).

**Part-time**

Part-time study load is less than 75 per cent of the standard study load (i.e. less than 6 units per semester for most programs).

**Adjustment factors**

Previously referred to as ‘bonus points’, these are a numerical value added or used in combination with an ATAR or selection rank. Common adjustment factors may include subject adjustments, enrichment studies, or educational disadvantage.

**Adjusted**

The lowest ATAR to which an offer was made to recent school leavers including any adjustment factors that may have been applied.

**Unadjusted**

The lowest ‘raw’ ATAR to which an offer was made to recent school leavers, excluding any adjustment factors.

**Campus**

S = UQ St Lucia, G = UQ Gatton, H = UQ Herston, D = Dutton Park, C = Clinical Schools

**QTAC code**

A unique code number assigned by QTAC to each individual undergraduate university program. You will need to use this number on your QTAC application.

**Disclaimer**

The information in this Guide is accurate as at January 2024. However, the University has many programs and courses, and refreshes and updates its programs and course offerings from time to time and without notice. It is your responsibility to visit study.uq.edu.au for up-to-date information.

All costs and fees quoted in this publication are in Australian dollars (A$).
